

About Us

District Agriculture Office, Morigaon

The District Agriculture Office, Morigaon works directly with farmers to deliver various extensions services, and support. Our mission is to promote **sustainable farming, market-led production, and higher farmer incomes**, ensuring better livelihoods for the people of Morigaon district.

Our Vision & Mission

Vision

To empower every farmer in Morigaon with enhanced income and prosperity by making agriculture profitable, sustainable, and resilient — thereby uplifting the socio-economic conditions of farming communities.

Mission

- Drive growth in crop production and productivity through sustainable, climate-smart practices and crop diversification.
- Mainstream organic cultivation to protect soil health, ensure food safety, and enhance profitability.
- Empower farmers with modern technologies, training, and knowledge-sharing for inclusive agricultural growth.

Our Mandate

- Transfer modern agricultural technologies through **extension services**.
- Conduct **frontline demonstrations** of improved, high-yielding crop varieties.
- Promote **farm mechanization** to reduce drudgery and improve efficiency.
- Support **irrigation practices** via government-sponsored schemes.
- Organize **farmer trainings** on scientific cultivation and crop management.
- Strengthen **post-harvest management and marketing linkages**.
- Provide **infrastructure support** for sustainable agriculture.
- Facilitate **input support** (seeds, fertilizers, machinery, etc.) under government schemes.

Our Objectives

- Improve farmer income and create rural employment.
- Ensure **better nutrition and health** for farm families.
- Reduce **migration** by creating local Agriculture livelihoods.
- Promote **climate-smart and eco-friendly farming**.
- To reduce post harvest losses
- Strengthen **marketing, value addition, and farmer entrepreneurship**.
