# District Disaster Management Plan-2026-2027

## PREFACE

The District Disaster Management Plan (DDMP) 2026-2027 is the first-level guiding principle for disaster management in the district. It sets a guiding role to cope up effectively with various natural hazards that occur in the district. The objective of disaster management is to reduce or control its loss throughout the DM cycle. Based on the history of various disasters that occurred in the district, the plan has been developed as an action plan rather than a response book. Special attention has been paid to make it simple, precise rather than bulky one. This plan has been prepared which is based on the guidelines provided by the National Institute of Disaster Management (NIDM). While preparing this plan, most of the issues related to disaster management have been carefully identified. Efforts have been made to identify and control the plan to reduce its loss, especially and effectively to handle any type of disaster in the district.

This DDMP will strengthen the efforts of the administration in the management of the disaster in the district. It clearly identifies the role and responsibility of the various key bodies by giving full emphasis about the risk process, vulnerability and strengthening the various disaster management message in the district. Therefore, providing full information to people of organization, institutions and houses, industries. The DDMP includes procedures and a responsibility in disaster events to minimize the risk of any hazards in the district. It clearly outlines the capacities of the district in terms of resources, skilled resources, organized community disaster force etc. in order to give prompt response at the time of disaster.

It is hereby stated that DDMP should be highly modified only by District Administration but use by all the departments and main bodies such as NGOs, CBOs, Civil Society and general population to provide the efficient and effective disaster relief plan. In further of modify it, need and the very much for various National and international humanitarian organizations including UNFPA to give full support and participation progressing after the disaster for the sustainable implementation of various strategies of DDMP. It is essential to have a disaster committee and committee very well district administration.

## CHAPTER- I

### INTRODUCTION

The District Disaster Management Plan covers the disaster activities to be undertaken during flood in the monsoon in the district. It is found that every year of the district is affected by flood which is caused by excess of rain and further increase in the past few years. In the monsoon, the occurrence of these floods could vary depending on the variation of weather conditions that lead to the high water in the district.

The District Disaster Management Plan is based on the previous experience of flood and its reduction for mitigation. The District Disaster Management Plan shall be implemented in three stages as before the flood, during and after the flood. Preparation activities have three sub-stages by all the Line Departments by involving the vulnerable districts. The District Disaster and Management is done in the year and the District Disaster and Management is done by involving all the villages in the district. The District Disaster and Management is done in the year and the District Disaster and Management is done in the year and the District Disaster and Management is done in the year.

In order to ensure a successful response, disaster is prepared to handle by all departments such as coordination with local authorities, transport of personnel, supplies, in disaster areas and performance of disaster activities.

The objective of the District Disaster Management Plan is to effectively coordinate the response of flood, earthquake, storm, fire, landslide, etc. in human and human population, agriculture and livestock and the environment.

### OBJECTIVE OF THE PLAN

The District Disaster Management Plan is to achieve the following:

1. Assess the management and coordination of procedures, response and relief activities.
2. Assess the existing information during occurrence of disaster response.
3. Review the existing infrastructure and response.
4. Reduce the risk of secondary disaster, e.g. landslides, diseases, flooding, etc. during the period of impact of flood.
5. Coordinate the response activities of departments in response to natural or other emergency.
6. Identify and utilize fully the responsibilities of all personnel in emergency response.
7. Utilize resources and services, available in the district, including long term resources.

### IMPLEMENTATION

The District Disaster Management Plan has been formulated by taking cooperation of the District Disaster Management Cell, District Development Officer, District & Sub-District, etc. Department.

# District Disaster Management Plan-2026-2027

## GENERAL INFORMATION ABOUT DISTRICT

Madhya Pradesh is one of the southern states of India with an extent 169164 Sq. Km and situated on the east 81°10' E&W. It is bounded by the Punjab & Rajasthan States on the North, Andhra Pradesh, Odisha on the South, Gujarat & Maharashtra State and Orissa States on the West. Its coordinates are 23°12' N to 24° 50' N lat. and 75°12' E to 83° 12' E longitude.

## THE DISTRICT

Geographically & topography of this district is described as follows. It lies between 23°12' N to 24° 50' N lat. and 75°12' E to 83° 12' E longitude. It is bounded by the States.

## CLIMATE

The climate of the district is described as follows. It lies between 23°12' N to 24° 50' N lat. and 75°12' E to 83° 12' E longitude.

Latitude	23°12' N to 24° 50' N
Longitude	75°12' E to 83° 12' E
Temperature	15°C to 45°C

## RICE

The soil of this district is mostly composed of black soil. It is bounded by the States. It is situated on the east 81°10' E&W. It is bounded by the Punjab & Rajasthan States on the North, Andhra Pradesh, Odisha on the South, Gujarat & Maharashtra State and Orissa States on the West. Its coordinates are 23°12' N to 24° 50' N lat. and 75°12' E to 83° 12' E longitude.

## WATER AND WATER RESOURCES

The water resources of this district are described as follows. It lies between 23°12' N to 24° 50' N lat. and 75°12' E to 83° 12' E longitude. It is bounded by the States.

## CONSTITUTION

The district is bounded by the States. It is situated on the east 81°10' E&W. It is bounded by the Punjab & Rajasthan States on the North, Andhra Pradesh, Odisha on the South, Gujarat & Maharashtra State and Orissa States on the West. Its coordinates are 23°12' N to 24° 50' N lat. and 75°12' E to 83° 12' E longitude.

## FINANCIAL PROVISION

The district is bounded by the States. It is situated on the east 81°10' E&W. It is bounded by the Punjab & Rajasthan States on the North, Andhra Pradesh, Odisha on the South, Gujarat & Maharashtra State and Orissa States on the West. Its coordinates are 23°12' N to 24° 50' N lat. and 75°12' E to 83° 12' E longitude.

## District Disaster Management Plan-2026-2027

### Administrative Staff

Management has set up India Safe, Chennai and Mysore 3-Phase Helpline (24x7) to assist in  
disaster relief of various villages.

1. Disaster Relief Unit-100 Revenue villages.
2. Flood Relief Unit - 177 Revenue villages.
3. Mangrove Relief Unit - 102 Revenue villages.
4. Coastal Relief Unit - 274 Revenue villages.
5. Fisheries Relief Unit - 29 Revenue villages.

There are 05 Development Blocks and 04 Development Blocks in the District

1. Pudukkottai Development Block
2. Tirupur Development Block
3. Nilgiri Development Block
4. Sivagangai Development Block
5. Tirunelveli Development Block

## Final Contingency Plan 2025-2027

### VULNERABILITY ANALYSIS

ISSUES	VULNERABILITY	ATTORNEY'S COMMENT
Handbook	1. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan.
Heat	1. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan. The State of Wisconsin Electric, Health and Public Safety Services.
Power	1. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan.
Storage	4. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan.
Location	1. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan.
Water Supply	1. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan.
Fire Protection	1. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan.
Systems	1. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan.
Unmanned Aircraft	1. Unavailability of services - Government work private and public organizations (including Wisconsin Electric, Wisconsin Statewide Power supplies, Health services, State's Public safety authorities - University, Wisconsin People Center, Handicapped Children's Medical Program, etc. and other agencies)	There is no impact on the basis of the Handbook Plan.

## Final Contingency Plan 2025-2027

### RISK ANALYSIS

ISSUE	CONSEQUENCE	COUNTERMEASURES
<b>Integrity</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant
<b>Health</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant and other measures (e.g., public health education, etc.)
<b>Quality</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant
<b>Quantity</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant
<b>Availability</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant
<b>Cost</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant
<b>Regulatory</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant
<b>Reputation</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant
<b>Other</b>	Contaminated surface water may be used for public purposes (irrigation, livestock watering, domestic use, etc.) resulting in public health concerns (drinking water, etc.)	Water Treatment Plant at the Treatment Plant

## Final Contingency Plan 2025-2027

### CAPACITY ANALYSIS

The capacity analysis of the various and changing opportunities over the next three years is the primary step. Capacity assessment can make the program more efficient. It can also help to determine the right amount of staff for the program and the number of staff.

### REVISIONS TO FUNDING AND BUDGETS

The program's budget and funding sources are the next step. The budget and funding sources are the next step. The budget and funding sources are the next step. The budget and funding sources are the next step.

### OTHER INFORMATION

The program's other information is the next step. The program's other information is the next step. The program's other information is the next step. The program's other information is the next step.

### CONCLUSION

The program's conclusion is the next step. The program's conclusion is the next step. The program's conclusion is the next step. The program's conclusion is the next step.

### IMPLEMENTATION

The program's implementation is the next step. The program's implementation is the next step. The program's implementation is the next step. The program's implementation is the next step.

1. The program's implementation is the next step.
2. The program's implementation is the next step.
3. The program's implementation is the next step.
4. The program's implementation is the next step.
5. The program's implementation is the next step.
6. The program's implementation is the next step.
7. The program's implementation is the next step.
8. The program's implementation is the next step.
9. The program's implementation is the next step.

The program's implementation is the next step. The program's implementation is the next step. The program's implementation is the next step. The program's implementation is the next step.

## Final Contingency Plan-2025-2027

### INTEGRITY BUILDING'S OPERATIONS CENTER:

The Integrity Building's Operations Center will be an elevated and protected facility located adjacent to the existing communications center located directly across from the existing Operations Center. The Operations Center will be a secure facility with a controlled access system, including a secure perimeter and access control.

### FUNCTION OF INTEGRITY BUILDING'S OPERATIONS CENTER:

The Integrity Building's Operations Center is a secure facility of the FBI, located in the basement level of the existing Operations Center, located at 1077 1st Street NW, Washington, DC 20004. The Operations Center will be a secure facility with the following functions:

#### Facilities and Equipment:

1. The Operations Center will be a secure facility with the following functions:
  - a. Information processing to ensure that all requests for information are processed and all requests are completed in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - b. Information processing to collect, analyze, and disseminate information to the appropriate agencies and personnel in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - c. The processing of any requests received from the Operations Center's physical environment, including requests for information, in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - d. Information processing to ensure that all requests for information are processed and all requests are completed in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - e. The processing of all requests received from the Operations Center's physical environment, including requests for information, in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - f. The processing of all requests received from the Operations Center's physical environment, including requests for information, in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
2. The Operations Center will be a secure facility with the following functions:
  - a. Information processing to ensure that all requests for information are processed and all requests are completed in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - b. Information processing to collect, analyze, and disseminate information to the appropriate agencies and personnel in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - c. The processing of any requests received from the Operations Center's physical environment, including requests for information, in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - d. Information processing to ensure that all requests for information are processed and all requests are completed in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - e. The processing of all requests received from the Operations Center's physical environment, including requests for information, in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
  - f. The processing of all requests received from the Operations Center's physical environment, including requests for information, in a timely manner in the context of the change of the FBI's Operations Center's physical environment.
3. The processing of all requests received from the Operations Center's physical environment, including requests for information, in a timely manner in the context of the change of the FBI's Operations Center's physical environment.

## Final Contingency Plan 2025-2027

1. Document a process flow to submit an EIR/EIS to the public for potentiality (in case of a fire) caused by the fire protection. To create an actual plan document.
2. Document a process for the handling of a fire that impacts all affected fire and water levels every description of AAF from damaged contents of Water Resource Type 2 (WTR2) (Specialized Equipment, including various fire stations) (in May 2025/2026)
3. Handle the issue of a potential fire in the EIR/EIS document from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
4. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
5. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
6. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
7. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
8. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
9. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
10. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
11. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
12. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
13. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
14. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
15. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
16. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
17. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
18. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
19. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)
20. Document the issue of a fire that impacts the handling of a fire that impacts all affected fire and water levels from the fire station (EIR/EIS) Water Resource Type 2 (WTR2)

## Final Contingency Plan 2025-2027

5. This plan is part of CH2M's overall plan developed by the Strategic Plan and **PROJECTED CH2M's Contingency CH2M**.

### Final Contingency Plan (CH2M's Contingency Plan)

- a. Represented by CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- b. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- c. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- d. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- e. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- f. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- g. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- h. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- i. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).
- j. CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan) and CH2M's Strategic Plan (CH2M's Strategic Plan).

### CH2M'S STRATEGIC PLAN (CH2M'S STRATEGIC PLAN)

The Strategic Plan (CH2M'S STRATEGIC PLAN) will be the primary driver for the business with the strategic initiatives and the ability to coordinate with the strategic initiatives for early response to Strategic Initiatives and Management of the Strategic Plan.

The Strategic Plan (CH2M'S STRATEGIC PLAN) is part of the overall business plan and is the primary driver for the business with the strategic initiatives and the ability to coordinate with the strategic initiatives for early response to Strategic Initiatives and Management of the Strategic Plan.

### CH2M'S STRATEGIC PLAN (CH2M'S STRATEGIC PLAN)

## Final Contingency Plan-2025-2027

### ACTION PLAN FOR THE DISTRICT'S EMERGENCY OPERATIONS CENTER:

The District's emergency response plans must be an integral and primary part of District Management. This will help build comprehensive disaster readiness to deal with major natural disasters or other threats and business recovery after the disaster as well as ensure the safety of property belonging to the members of the District.

#### A. District Plan Objectives

The District Plan objectives of the District Emergency Operations Center under the guidance of the District Commissioners are:

1. Development of training and communication systems, dissemination of training materials
2. Develop relationships with a variety of agencies that are the responsible for the protection of the people of the jurisdiction and District's assets
3. Review request and procedures from the various District level departments and other agencies to get the message. Based on these requests, the EOC will proceed as appropriate through already established or the District or the various District level Emergency Operations Center for local jurisdictions and EOCs
4. Update and gather District level disaster preparedness plans just covering a complete spectrum of the District
5. Offer basic operations and maintenance training of EOCs
6. Develop procedures, manuals, operating, maintenance manuals, standard for various departments
7. Develop procedures manuals of EOCs in the District level local level and District level plans
8. Develop response, withdrawal, return, suspension, and other recovery plans and to coordinate during the time of disaster and use for further or additional local District preparedness
9. Regular maintenance of disaster and update EOCs accordingly
10. Review, update and maintain all District level disaster recovery procedures according to the Emergency Operations Center (EOC).

### IMPLEMENTATION OF THE DISTRICT'S EMERGENCY PLAN:

#### A. Emergency Response:

1. Issue incident call (e.g. emergency declaration)
2. To collect and transmit information regarding current status of emergency
3. Mapping of emergency area
4. Determine level of emergency response and level of priority
5. Determine resources
6. Determine specific strategies and resources requirements and assignments
7. Plan of emergency response control center for Special District Commission's office and EOCs
8. Establish communication to officials and EOCs in emergency response
9. Start and conduct management by emergency strategies handling emergency

IMPLEMENTATION PLAN				
Event/Task	Priority	Person Responsible	Resource required or to be assigned from	Start/Stop and contact

## Hazard Contingency Plan-2025-2027

For the purpose of the present plan, the following are the identified hazards:	1. Fire	2. Flood	3. Earthquake	4. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other
1. Fire	2. Flood	3. Earthquake	4. Other	5. Other

### DISASTER PREPAREDNESS AND MITIGATION PLAN:

The District has the preparedness and response strategy to prevent the disaster preparedness. It has prepared the disaster preparedness strategy including the implementation of an effective disaster preparedness strategy. The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy. The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy. The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy.

The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy. The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy. The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy. The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy.

The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy. The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy. The strategy will be applied to all disaster preparedness and response activities including the implementation of disaster preparedness strategy.

## Final Contingency Plan 2025-2027

critical objectives of mitigation plans to ensure the most successful outcome and maximizing the likelihood, particularly for communities through existing and emerging markets. Preparedness has to be supported by the necessary legislative and regulatory changes that should be passed into place immediately to succeed. The core structure of preparedness includes the future steps through mitigation actions and requires the support of their risk analysis and different methods to successfully give methodology to implementation (see Table 1). The strategy to ensure the required resources comes to depend on the capacity and the capability of the existing or emerging organizations, either at company's level. Thus, it gives an indication to us to ensure continued in sustainability. The full capacity of preparedness requires an understanding of local economy and resources available plus through community education, infrastructure, response structure such as Community Risk Rating Management Team (CRRM) and administrative preparation by sets of activities, of people, strategies, strategies plus the things included.

Since disaster relief process only needs processes, procedures and methods that requires the organizations, before that can be placed upon it. Hence, it gives an indication to the capacity of the current system that can policy the disaster management/ preparedness for possible reduction of vulnerability.

### Preparedness Plan for Hurricane Storms

Based on the previous experience in disaster management, including emergency services for disaster preparedness for the future event.

Adaptation of Emergency Operations Plan (EOP) The main contribution with that EOPs and procedures. All things is a very important part. However, the question is that whether the need for contribution to the disaster reduction and the need for reduction with the emergency to meet the contribution toward it. The use of EOPs can be implemented in the Emergency/Disaster/Contingency and business recovery.

### 1) General/Basic Activities of Emergency Operations Plan:

1. Provide warning and evacuation of citizens in a working condition
2. Collect and control of information resources related to disaster response, search, management.
3. Limited duties, such as emergency services, fire, police, etc.
4. Provide contribution with Community, State and State level response.
5. Monitor and receive resources (financial, human, skills, knowledge, resources, resources, capabilities and disaster management).
6. Develop emergency preparedness, intelligence and coordination plan.
7. Monitor and control of the emergency response and disaster relief related to preparedness.
8. Monitor and update response strategy.
9. Supply of resources to the other government.

### 2) Evaluation of EOP

However, the EOP policy Operations Plan of EOPs is supported with computer aided systems in EOP. EOP could include a well designed computerized systems, such as communication, action and management. Improving the system will be made available in the use of it.

1. A detailed description of the plan will also include the administrative structure.

## Final Contingency Plan 2020-2021

- 1. Contingency preparations should be initiated in 2020
- 2. Steps including, but not limited to, identifying critical components and services, identifying personnel that will be needed to ensure essential operations
- 3. Assessment of emergency resources that may be needed to ensure personnel for essential services
- 4. EOC will have personnel in place to ensure critical services
- 5. Programs and/or services that may be impacted by the onset of the crisis will be identified. These programs and services will be kept under a close financial and operational review.
- 6. EOC will be kept operational for at least 30 days of the duration of the crisis per the Emergency Services Act (ESA)

### Final Assessment

As a result of the final critical contingencies and emergency services listed by personnel for the crisis in the final EOC, the following should be reported to the members of the Board for the contingency assessment and the contingency preparedness.

#### List of staff and their assignments

NO.	EMPLOYEE'S NAME/TITLE/PHONE	ASSIGNMENT
1.	Director	Chief Executive
2.	Assistant Director	Chief Financial Officer
3.	Assistant Director	Chief Information Officer
4.	Assistant Director	Chief Operating Officer
5.	Assistant Director	Chief of Administration, Programs
6.	Assistant Director	Chief of Compliance, Risk Management
7.	Assistant Director	Chief of External Affairs, Public Relations
8.	Assistant Director	Chief of Internal Security, Safety, Security
9.	Assistant Director	Chief of Information Technology
10.	Assistant Director	Chief of Legal Affairs
11.	Assistant Director	Chief of Planning, Research, and Statistics
12.	Assistant Director	Chief of Procurement
13.	Assistant Director	Chief of Training and Development
14.	Assistant Director	Chief of Facilities Management
15.	Assistant Director	Chief of Human Resources

### PREPARATION OF CONTINGENCY PLAN

The contingency plan is a document that describes the organization's plan to deal with the crisis. It is a document that is developed by the organization and is used to guide the organization's response to the crisis. The contingency plan is a document that is developed by the organization and is used to guide the organization's response to the crisis. The contingency plan is a document that is developed by the organization and is used to guide the organization's response to the crisis.

### PREPARATION OF A CONTINGENCY PLAN

The contingency plan is a document that describes the organization's plan to deal with the crisis. It is a document that is developed by the organization and is used to guide the organization's response to the crisis. The contingency plan is a document that is developed by the organization and is used to guide the organization's response to the crisis.

## Final Contingency Plan 2020-2022

subject to government or other agencies. The above criteria will only be binding conditions and shall be subject to the relevant agencies. Transacting in US and European or European Support Finance can be used here and for an emergency plan, ensuring being used in case.

### EMERGENCY PLAN

The Director/Commissioner of Mysore University, the Chairman of MHRD is the main authority point in writing direction to all the departments and to provide emergency assistance. Various departments will provide overall operational direction and coordination for all the response activities with the help of Emergency and Management activities and Special Management Operations Centre. The role is supported by various ICDTs commitment as the direct point for support. Keeping the following. Further, the office of the MHRD should be supported to get in touch. Mysore University

### EMT at District Level

#### 1. DISTRICT EMERGENCY TEAM

The following are the members of Emergency team:

Sl. No.	Name	Designation	Contact
1	Dr. Raj. H.R. Marjapur Dr. Raj. H.R. Marjapur	Chairman	9448800024 / 9448800024
2	Dr. Raj. H.R. Marjapur Dr. Raj. H.R. Marjapur	Member	9448800024
3	Dr. Raj. H.R. Marjapur Dr. Raj. H.R. Marjapur	Member	9448800024 9448800024 / 9448800024
4	Dr. Raj. H.R. Marjapur Dr. Raj. H.R. Marjapur	Member	9448800024

### Responsibilities

#### When

1. Monitoring of weather for any change in weather conditions and to be notified to the concerned.
2. Make necessary arrangements to avoid the damage to the students of other district. Immediate coordination arrangements to the other's organizations.
3. Telephone list, including all local and other phone numbers will be ready.
4. A reserve fund of the operations of District Emergency team will be with the group.
5. The District coordinating of District Emergency Operations, including all other important matters, should be kept ready for the group for any reference and for providing assistance in other risk that need to be taken and taken.

#### During

1. Once about the emergency, contact from other or members with the group Department is required to be met.
2. Assessments the weather throughout the district, especially those affected areas are more vulnerable. Develop the safety, security, rescue or rehabilitation.
3. Monitor current local District Emergency Operation team and need to get the updates.
4. The District Emergency team should be ready to go to the field.
5. After
1. Monitor the path of flood the area where flooding may be possible point.
2. Assessments the emergency response to report the incidents and coordinate.
3. Coordinate with other groups/teams/units.

## Final Competency Plan 2025-2027

### STATE AND PRACTICE PLAN

#### Final Assessment of the Library program:

Item	Assessment	Final Plan
Library Assessment 2021 State Department of State Services	Library	10/1/2021 10/1/2021
Library Assessment 2022 and 2023 State Department of State Services	Library	10/1/2022 10/1/2023
Library Assessment 2024 State Department of State Services	Library	10/1/2024 10/1/2024
Library Assessment 2025 State Department of State Services	Library	10/1/2025 10/1/2025
Library Assessment 2026 State Department of State Services	Library	10/1/2026 10/1/2026
Library Assessment 2027 State Department of State Services	Library	10/1/2027 10/1/2027

#### Responsibilities:

##### Library

1. Identify the administrative needs for assessment colleges and students.
2. Plan for implementation of the revised needs by being the lead in meeting all needs along with the state and within the district, identify the workload of the partners with your workload of assessment.
3. Bring the revised needs to the attention of the state and the district, for all the assessment projects and needs that are required.
4. Develop a plan to meet the needs of the state and the district, and to meet the needs of the students.
5. Identify the location of the projects, the state, the district, the state and the district, and the state and the district.
6. Identify the needs of the state and the district, and to meet the needs of the students, and to meet the needs of the state and the district, and to meet the needs of the students.

1. Identify the needs of the state and the district, and to meet the needs of the students, and to meet the needs of the state and the district, and to meet the needs of the students.
2. Identify the needs of the state and the district, and to meet the needs of the students, and to meet the needs of the state and the district, and to meet the needs of the students.
3. Identify the needs of the state and the district, and to meet the needs of the students, and to meet the needs of the state and the district, and to meet the needs of the students.

## Final Contingency Plan-2025-2027

- 2) Identifying a backup person to take over the role of the incumbent in case of an emergency.
- 3) Transferring the relevant and critical data and information to the village.
- 4) Identification of various stakeholders and joining the organization.

### 3. HEALTH MANAGEMENT:

to define appropriate responsibilities of following positions:

Position	Designation	Contact No.
Chief Development Commissioner -Bhujpur	Leader	9438898816
Deputy Commissioner	Member	9826173881
Deputy District Engineer (Water) Bhujpur	Member	9826173881
Deputy District Engineer (Water) Bhujpur	Member	9826173881
Deputy District Engineer (Water) Bhujpur	Member	9826173881
Deputy District Engineer (Water) Bhujpur	Member	9826173881
Deputy District Engineer (Water) Bhujpur	Member	9826173881
Deputy District Engineer (Water) Bhujpur	Member	9826173881
Deputy District Engineer (Water) Bhujpur	Member	9826173881
Deputy District Engineer (Water) Bhujpur	Member	9826173881

### Responsibilities:

#### Chief:

1. Identify who will take over the role of the incumbent in case of an emergency.
2. Plan for the implementation of the contingency plan, including the role of the incumbent and the backup person.
3. Review the contingency plan regularly to ensure it remains up-to-date and effective.
4. Ensure that the contingency plan is communicated to all relevant stakeholders.

#### Member:

1. To provide the necessary data, reports, and information to the chief.
2. To ensure that the contingency plan is implemented as per the plan.
3. To provide any other support and assistance as required by the chief.

#### Role:

1. To lead the implementation of the contingency plan and to ensure that the village is prepared for any emergency.
2. To coordinate the work of the various members of the committee and to ensure that the contingency plan is implemented as per the plan.
3. To ensure that the contingency plan is communicated to all relevant stakeholders and that the necessary resources are available for its implementation.

## Final Contingency Plan 2025-2027

### CONTINGENCY OFFICERS

We will also designate the following persons:

NAME	ORGANIZATION	CONTACT INFO
Dr. Jennifer Boudreau Co-Director, OHSU/HSU	HSU	503.343.8111
Dr. David Baker, Director, Medicine	HSU	503.343.8111
Dr. Jennifer Baker Chief of OHSU	HSU	503.343.8111
Dr. John Dir. Academic Affairs/HSU	HSU	503.343.8111

### Responsibilities:

#### HSU

1. HSU's final contingency plan (contingency plan) is submitted to the UH of all affected groups and is approved within 10 days after presentation of the plan and being approved by the UH.
2. HSU's contingency plan will include the UH's plan, which includes the contingency plan, which includes the UH's plan, which includes the UH's plan, which includes the UH's plan.
3. HSU's contingency plan will include the UH's plan, which includes the UH's plan, which includes the UH's plan, which includes the UH's plan.

## Final Contingency Plan 2020-2027

- Hold regular meetings to discuss this, to discuss the necessary information with supply to the school, to discuss administrative and general policies in place.
- Prepare a list of emergency personnel of different stages or available to the school and the size of additional staff for emergency situations.
- Form different levels of equipment and materials by using what is in the school. Some materials will be extra things and that should be used.
- Identify high level of resources, plans or other items ready for use.
- Make arrangements for staff emergency leave, pay and other things that apply to the school terms.

### Staff

- Learn emergency and planning (see page 44) to ensure they are in the school terms and during the EFT in the school terms.
- Make arrangements for staff emergency leave, pay and other things that apply to the school terms.
- Prepare staff emergency leave, pay and other things that apply to the school terms.

### Other

- Plan arrangements for planning of planning grade and other activities in the school, which will be in terms of school of emergency.
- Plan arrangements for planning of planning grade and other activities in the school, which will be in terms of school of emergency.

## a) Table 1: Staff

Name	Position	Availability
Mr. [Name]	Teacher	[Availability]
Ms. [Name]	Teacher	[Availability]
Mr. [Name]	Teacher	[Availability]

### Responsibilities

- Plan and coordinate emergency response activities, including: communication, safety, health, and security. The school staff will be responsible for these activities and will be responsible for the safety of the staff.
- Identify and coordinate emergency response activities, including: communication, safety, health, and security. The school staff will be responsible for these activities and will be responsible for the safety of the staff.
- Identify and coordinate emergency response activities, including: communication, safety, health, and security. The school staff will be responsible for these activities and will be responsible for the safety of the staff.
- Identify and coordinate emergency response activities, including: communication, safety, health, and security. The school staff will be responsible for these activities and will be responsible for the safety of the staff.

## Final Contingency Plan 2025-2027

### TRAILER AND CONTINGENCY:

The group will prepare a contingency plan:

Phase	Assigned	Review Date
Contingency Plan 2025-2027	2025	2025/2027
Contingency Plan 2025-2027	2025	2025/2027
Contingency Plan 2025-2027	2025	2025/2027
Contingency Plan 2025-2027	2025	2025/2027

### Agreements:

#### Notes:

1. Following the review of the contingency plan, the group will meet to discuss the plan, its implementation, and its review.
2. During the contingency plan, the group will meet to discuss the plan, its implementation, and its review.
3. During the implementation of the contingency plan, the group will meet to discuss the plan, its implementation, and its review.
4. During the implementation of the contingency plan, the group will meet to discuss the plan, its implementation, and its review.
5. During the implementation of the contingency plan, the group will meet to discuss the plan, its implementation, and its review.
6. During the implementation of the contingency plan, the group will meet to discuss the plan, its implementation, and its review.
7. During the implementation of the contingency plan, the group will meet to discuss the plan, its implementation, and its review.

### AGREEMENT:

1. The group will agree to the contingency plan, its implementation, and its review.
2. The group will agree to the contingency plan, its implementation, and its review.
3. The group will agree to the contingency plan, its implementation, and its review.

### AGREEMENT:

1. The group will agree to the contingency plan, its implementation, and its review.

### Final Management Plan:

The group will prepare a final management plan, which will be reviewed and approved by the group.

1. The final management plan will be reviewed and approved by the group.
2. The final management plan will be reviewed and approved by the group.

## Final Contingency Plan-2025-2027

which will ensure income for carrying out the work and costs and for contingencies. There shall be a provisions Committee which shall review relevant available in the state available in the state.

- 1) The committee shall be composed of members from various state agencies, Agricultural Director and Education and Management they shall be approved by the state members of education and skills. Their terms shall be subject to the approval members of State Council and other members committees formed by the government.
- 2) The committee shall have the right to recommend those who shall be the Chairperson of the committee.
- 3) In carrying out its work the committee shall be assisted by the state members of education and skills. Their terms shall be subject to the approval members of State Council and other members committees formed by the government.
- 4) The committee shall have the right to recommend those who shall be the Chairperson of the committee.
- 5) The committee shall have the right to recommend those who shall be the Chairperson of the committee.
- 6) The committee shall have the right to recommend those who shall be the Chairperson of the committee.
- 7) The committee shall have the right to recommend those who shall be the Chairperson of the committee.
- 8) The committee shall have the right to recommend those who shall be the Chairperson of the committee.
- 9) The committee shall have the right to recommend those who shall be the Chairperson of the committee.
- 10) The committee shall have the right to recommend those who shall be the Chairperson of the committee.

The committee shall have the right to recommend those who shall be the Chairperson of the committee.

### THE STATE MEMBERS OF EDUCATION AND SKILLS

Name	Address	Telephone	Professional Title

The committee shall have the right to recommend those who shall be the Chairperson of the committee.

The committee shall have the right to recommend those who shall be the Chairperson of the committee.

The committee shall have the right to recommend those who shall be the Chairperson of the committee.

## Final Contingency Plan-2025-2027

- 1) Along with information disseminated to the relevant and interested agencies, every night, the staff is called and given preliminary fire-fighting instructions. The staff is also in possession of 45-minute papers.
- 2) All the classrooms/department are well equipped for such events. The Management team have conducted regular fire drills in various programmes.
- 3) Fire extinguishers are available in all the classrooms and staff give proper instructions on correct usage/operation of the same in fire.
- 4) Fire drills are conducted regularly in every part of the building in every condition. There is a fire assembly to be held in the main hall every morning. In a disaster (natural and) fire situation, evacuation of the campus is made in strict order. Management will do its utmost possible to save the value property, system or valuable system installed in the building. Management shall prepare cost of such buildings.

## RECOVERY & RECONSTRUCTION PLAN :

Identify critical and non-critical systems which recovery plan documents are vital and basic requirement of the business. The recovery strategy documents shall set the order of critical programmes to be started. Deliverables are the recovery objectives that will be achieved by each recovery plan. An organization should identify if it is likely to be directly affected event.

Recovery of back up information : After the disaster occur in a process of reconstruction to restore the data, access to the systems.

Sl. No.	Recovery of Data/Service	Recovery Strategy/Programme
1	Recovery of critical information/data using back up strategy.	Recovery strategy (process) using backup.
2	Recovery of information/data using cloud.	Cloud recovery.
3	Recovery of information/data in real time.	Real-time recovery.
4	Recovery of critical data in disaster site.	DRR at disaster site.
5	Recovery of Data recovery centre.	DRR at recovery.
6	Recovery of data centre.	DRR recovery of data centre.

### Recovery/Recovery of Infrastructure Buildings

How should the government recover from the disaster according to the following government

- All the critical buildings are the Government office, School/Colleges
- Building and structural building are found to repair and correct their design.
- Fire protection equipment, fire
- In post fire situation, all other damaged and bridge and other will be taken repaired if possible.
- Fire-Disaster Management
- Public Works Emergency Response (PWER)
- In case any PWER equipment is damaged by the fire, it will be replaced by a new one. It is required to be purchased in the post-event of the disaster and will
- If the losses should be reduced.

## Final Contingency Plan 2020-2027

- **Protect the population**
- **Ensure an unbiased and transparent response provided to the government**
- **The design for critical components of health preparedness for individuals**
- **The national response for critical components for critical infrastructure**
- **Design of "Stand-By" teams provided to the public in cases that require additional resources and support**

**Medical Rehabilitation** - Capacity of critical care area is required to help the affected population. It is important to ensure that the patient process within the hospital. At the critical response level, the emergency response team is a critical part of response to a major disaster. We ensure that the response team is able to respond and coordinate the population system flow. The public health system health departments are required to coordinate with public response to date. Health preparedness efforts include a public health response plan for critical response. For Preparedness health, the critical response may be designed to be a public health response plan for critical response. For Preparedness health, the critical response may be designed to be a public health response plan for critical response.

### Social Rehabilitation

#### **Health preparedness**

## Final Contingency Plan 2025-2027

### CRITICAL OPERATING PROCEDURES AND MEASURES

All the critical operating procedures of the essential services, systems, equipment, systems participating in the IOPMP, it is necessary that all the departments have well defined critical operating procedures and responsibilities/roles.

The National Government shall monitor the critical operating procedures, among the departments, agencies and on the compliance of the procedures, pursuant to the Human Resource Department. The critical operating plan is developed in accordance with all the departments, agencies and on the basis of the overall plan and the procedures specifically applicable to them and upon the study upon the requirements.

Essential Operating Procedures should be well developed and improved upon a basis of changing circumstances. The Human Resource should monitor all the departments in proper charge on their compliance with a view to enhance the effectiveness of the Critical Contingency Management Plan. The National Government shall monitor the compliance of critical operating procedures in order to ensure the smooth operating procedures. For Human Administration

#### Section 4 (1)(b)(i) (A)

- Preparations:**
1. Develop the message of Critical Contingency Management Initiative;
  2. Appoint the Human Resource Management Plan;
  3. Monitor and coordinate the Critical Contingency Management Committee;
  4. Establish the structure of operations;
  5. Establish the system of communication through the Public Emergency System;
  6. Prepare a list of critical services to be distributed;
  7. Prepare a contingency plan for supply of critical items;
  8. Prepare a contingency plan for the critical services to be provided;
  9. Prepare a list of critical services, facilities and their operations involving the emergency response;
  10. Develop a system of critical services and supply contingencies responsibilities to staff members and institutions;
  11. Establish a system of critical services, facilities and their operations involving the emergency response;
  12. Establish a system of critical services, facilities and their operations involving the emergency response;

#### Preparations Checklist for Human Administration:

No.	Preparations/Measure
1	Establish a system of critical services, facilities and their operations involving the emergency response;
2	Develop a system of critical services, facilities and their operations involving the emergency response;
3	Establish a system of critical services, facilities and their operations involving the emergency response;
4	Develop a system of critical services, facilities and their operations involving the emergency response;
5	Establish a system of critical services, facilities and their operations involving the emergency response;
6	Develop a system of critical services, facilities and their operations involving the emergency response;
7	Establish a system of critical services, facilities and their operations involving the emergency response;

## Final Contingency Plan 2025-2027

Final Contingency Plan 2025-2027	
1	Identify the business operations and performance indicators that the university will not tolerate any longer.
2	Identify the business operations and performance indicators that the university will tolerate.
3	Identify the business operations and performance indicators that the university will tolerate in the short term, and a list of those plans for operations that are identified as the critical performance indicators.
4	Identify the business operations and performance indicators that the university will tolerate in the long term, and a list of those plans for operations that are identified as the critical performance indicators.
5	Identify the business operations and performance indicators that the university will tolerate in the long term, and a list of those plans for operations that are identified as the critical performance indicators.
6	Identify the business operations and performance indicators that the university will tolerate in the long term, and a list of those plans for operations that are identified as the critical performance indicators.
7	Identify the business operations and performance indicators that the university will tolerate in the long term, and a list of those plans for operations that are identified as the critical performance indicators.
8	Identify the business operations and performance indicators that the university will tolerate in the long term, and a list of those plans for operations that are identified as the critical performance indicators.

### Final Contingency Plan 2025-2027

1. Identify the business operations and performance indicators that the university will not tolerate any longer.
2. Identify the business operations and performance indicators that the university will tolerate.
3. Identify the business operations and performance indicators that the university will tolerate in the short term, and a list of those plans for operations that are identified as the critical performance indicators.

## Final Contingency Plan-2025-2027

- 1) Academic activities & business activities of a residential school to be maintained and vulnerability to various scenarios.
- 2) Final decisions should be made by the Principal, Executive In-charge and Staff.  
Finalized actions include following EOP scenarios:
  - a) To start School and resume the 2025-2027 program.
  - b) To resume operations during the outage.
  - c) To provide online and remote services.
  - d) To set up temporary shelter for students on-site.

### ENERGY AND OTHER PHYSICAL ASSESSMENTS

- 1) EOP/IEP has already assessed under the EOP/IEP program by several EOP related programs.
- 2) Physical security to include fire, natural disasters, theft, terrorism, contamination, hazardous materials, etc. will be reviewed periodically.

### SECURITY AND PROTECTION

An assessment of EOP/IEP program has been done by the following factors: The school structure is built based on complete fire-resistance system that can resist fire and structural damage in fire situations and has a fire alarm system. This has the effect of fire with spreading by the alarm and other operations, fire has increasing the quality of physical security. However, physical assessment is conducted through various means available around it also provides a guide to identify the actual fire and process when it occurs with a single objective to find its contribution with other factors and provide broad approach from the situation. Keeping all these points in mind the EOP/IEP must be reviewed and updated for the threat assessment to be successful.

### Risk Rating

The purpose of a risk assessment (EOP) is to determine:

- the identity of activities
  - the inherent risks from various operations
  - resources requirements
  - generating early alerts
- The goal of EOP is to identify risks from various operations and determine:
- the associated hazards
  - the associated resources to be determined through
  - Response procedures following major incidents or emergencies
  - Assignment of responsibilities

Individual activities are grouped into the response plan with the EOP will provide appropriate response plan and related hazard response procedure, priorities, duties and assign during operations and various factors. The mission is primarily based on preparation.

### Risk Index

The EOP/IEP is a "living document" and should be reviewed regularly to ensure compliance with

## Final Contingency Plan-2025-2027

### Part 1 of 17

#### CHAPTER 08 ACTIVITIES IN DIFFERENT DIVISIONS RELATED TO DISASTER MANAGEMENT

The Department is the Government's reference in various phases regarding the PM's activities. They have to deal the activities that is disaster management. So, they should be prepared themselves to deal with the emergency and management of disaster. This section will show the detailed activities of the department in disaster PM's activities. The items listed provide an initial point of reference that is not to be treated as an exhaust list of all aspects. It will involve a complex and changing scenario that is covered by the system software used as well as emergency PM's all the time. All these details mentioned in this section by the department are subject to change. Using this manual provides primary responsibilities, activities of other line departments in detail and should be followed by the user.

8.1 Functions of Ministry Management Department	
<b>Programs</b>	<ul style="list-style-type: none"> <li>• Supervise and manage (MMD) all of programmes as follows in the type</li> <li>• Establish a disaster management business centre to support and improve our local communities' business</li> <li>• Check periodically the 'status' members of all kinds of relief/pushout programmes and the relief systems</li> <li>• Establish 'Emergency Centre' in the state along with support of this business</li> <li>• Support activities in the field (Disaster) Experiences on the technical perspective of the departments and administrative work</li> </ul>
<b>Programs &amp; Activities</b>	<ul style="list-style-type: none"> <li>• Establish Disaster Management (Disaster Management Fund)</li> <li>• Review annually the activities and provide responsibilities to carry the emergency and the activities</li> <li>• Review annually the financial and accountability statements of the emergency and the activities for the year concerned and reports</li> <li>• Review responsibility to the end user</li> <li>• Establish Early Warning System to the user for hazard risk</li> <li>• Establish early long-term strategy with existing activities in the area and government</li> </ul>

## Flood Contingency Plan-2025-2027

<b>Phase 1: Pre-flood</b>	<ul style="list-style-type: none"> <li>• Establish protocols for the dissemination of warning information</li> <li>• Monitor vulnerability, the level of damage and determine an initial assessment of damage response</li> <li>• Prepare damage reports and update HRV conditions and all the departments, administrative units</li> <li>• Develop preparedness and response programmes, conduct regular tests, drills and exercises, participate in high risk programmes, which to avoid the influence of environmental factors of the hazard</li> </ul>
<b>Phase 2:</b>	<ul style="list-style-type: none"> <li>• Coordinate and manage response activities (evacuation)</li> <li>• Address the emergency response activities, take necessary actions to reduce response or impact activities</li> <li>• Deploy rapid damage assessment to gather first aid resources</li> <li>• Take support from other departments, a dedicated dedicated system to coordinate and manage the emergency response activities of the area, coordinate or provide facilities</li> <li>• Coordinate emergency resources and resources in the field</li> <li>• Develop a full network and first response of emergency services, by efficient emergency response</li> <li>• Conduct operations to set up temporary shelter for the affected population, ensure that the departmental level coordination is working smoothly for distribution of relief</li> <li>• Coordinate with all agencies involved like including the Police, FICG, DCA, Media, Police, and Veterinary Services</li> </ul>
<b>Phase 3: Post-flood</b>	<ul style="list-style-type: none"> <li>• Conduct emergency assessment of the situation</li> <li>• Ensure supply of the resources, first aid kit, first aid supplies and clothing requirements</li> <li>• Coordinate emergency response activities to provide relief services from the shelter to meet the high risk areas, conduct of (first aid) services, studies to determine damage, conduct of services to determine public requirements and welfare activities</li> <li>• Prepare final damage reports and determine the path for the distribution of the emergency response</li> <li>• HRV score based on Pre-flood and Post-flood on programme</li> <li>• Coordinate the facilities with agencies and institutions regarding support (health and social services)</li> <li>• Document lessons learnt and their practices to all departments across the State</li> </ul>

## Final Emergency Plan 2025-2027

WU Health and Safety System Improvement	
Prevention	<ul style="list-style-type: none"> <li>• Reduce the risk of major incidents through emergency preparedness for hazardous</li> <li>• Develop critical and non-critical safety performance plan and emergency strategy</li> <li>• Develop an incident response and recovery strategy for hazardous process failure</li> <li>• Develop additional set of procedures to address major incident case study based on major emergency plan and related issues</li> <li>• Develop health care system for the site based on ISO 45001</li> <li>• Conduct a health and safety assessment and identify the emergency plan to be addressed</li> <li>• Conduct an emergency safety audit and assess performance</li> <li>• Conduct a safety audit to identify safety deficiencies and system</li> <li>• Develop a risk rating to medical practitioners to help in identifying safety related issues to be addressed</li> <li>• Work on safety planning to improve emergency preparedness (short term)</li> <li>• Develop a system to address major incidents and related issues through a safety plan to the plant (long term) and related issues (short term)</li> </ul>
Prevention of Incidents	<ul style="list-style-type: none"> <li>• Perform an incident investigation and assess safety performance of a unit and carry out corrective action and related issues</li> <li>• Perform a health and safety risk assessment and safety related issues assessment of hazardous processes and the impact of the mitigation and preparation</li> <li>• Review budget for research purposes of health and safety related activities and related resources</li> <li>• Maintenance of health and safety related systems to prevent incidents</li> <li>• Conduct a risk assessment to assess safety and health of the site and related issues</li> <li>• Identify safety related issues, health and safety related issues and related incidents and related issues of health and safety</li> </ul>
Health Safety Strategy	<ul style="list-style-type: none"> <li>• Develop a health and safety strategy to address safety and health related issues</li> <li>• Develop a health and safety strategy to address safety and health related issues</li> <li>• Develop a health and safety strategy to address safety and health related issues</li> </ul>

## Plant Contingency Plan-2025-2027

	<ul style="list-style-type: none"> <li>• Review the facilities to ensure it provides an adequate level for the long term contingency response plan</li> <li>• Review additional requirements to back up generation for the supply of electricity</li> <li>• Identify emergency control activities of the system with respect to the Plant and related on the basis of emergency Plan</li> <li>• Review arrangements for on-site facilities for maintenance</li> </ul>
<b>Response</b>	<ul style="list-style-type: none"> <li>• Assess that it covers Contingency Plans under NERC Contingency Plans as well as those depending on the nature of the event</li> <li>• Review emergency plans (under PTE, Loss of Thermal Capacity)</li> <li>• Assess the availability of facilities, maintenance services, equipment, instruments, medical services, medical support staff and personnel from the plant</li> <li>• Identify any personnel issues (PPE) that may affect specific facilities and work</li> <li>• Provide basic medical services to the personnel (first aid and first aid kit) (as per local codes)</li> <li>• Plan maintenance management</li> <li>• Address major events as per the additional provisions</li> <li>• Transfer the security risk and responsibility promptly</li> <li>• Evaluate first response if the event occur</li> <li>• Establish guidelines and identification process for affected areas</li> <li>• Manage all critical situations during emergency and arrange for activities</li> <li>• Address those involved after the event occur</li> <li>• Conduct emergency drills including all emergency personnel and affected health facilities</li> <li>• Review the emergency response system based on all issues including multiple services (personnel, first aid, health, personnel, maintenance activities)</li> </ul>
<b>Availability of Resources</b>	<ul style="list-style-type: none"> <li>• Provide support to emergency operations</li> <li>• Carry out regular assessment on facilities in the emergency</li> <li>• Provide support to the departments in the safety and Health Department of the organization</li> <li>• Provide support to other departments in the safety and Health Department of the organization</li> <li>• Develop a strategy to ensure the availability of essential resources in the event of an emergency</li> <li>• Develop a strategy to ensure the availability of essential resources in the event of an emergency</li> </ul>

## Flood Contingency Plan-2020-2023

### Name of Issuing Authority:

Name of Officer	Designation	Department	Contact No.
	Secretary	Home Department	98960111
	Joint Secretary	Public Relation Cell	91990111

### Role and responsibilities of Issuing Officers:

1. The Issuing Officer will keep a close watch over their respective units and report to the Chief Officer regarding the status of the implementation concerning work and budget, cost and planning in their respective offices.
2. The Issuing Officer will try to coordinate with the Nodal Officers of their respective units along with the Liaison Officers and I/Os/Secretaries during the relief and rescue operations and render the proper pointing of the rescue force.
3. The Issuing Officers (IOs) will collect report from sub-offices of the contingencies, medical and security units, damage to communication equipment for and will report to the Chief Officer on a regular basis. They shall also collect the requirements of security force or units for the operation of relief and rescue operation.
4. The Issuing Officers (IOs) shall also report the I/Os/Secretaries for covering the relief and rescue operation.
5. During the rescue operations, IOs shall through the Liaison Officers and ensure that complete cover comprising of police, security, fire, personnel and the relief force as well as other rescue groups for ensuring security as far as possible. They shall also monitor the movement of all rescue especially fire force during the relief stage.
6. They shall ensure that the personnel from rescue units are properly briefed about the rescue activities and will be well equipped and well trained as well.
7. Final report of their assigned unit will be submitted to the Chief Officer on a regular basis. The final report shall cover the status of progress through the IOs and the progress of implementation of operations.

### Operating Procedure For relief and Rehabilitation:

The IO will give the necessary report to the people and inform the list of priority and the affected villages, as per existing procedure and inform the report to the Chief Officer for onward submission to the I/Os. The State Director and Joint PM will also send the relief staff to the field level according to the budget.

LAs will prepare and submit proposal for assistance against losses/damage under FEMA immediately during the relief.

All the departments will prepare and submit proposals under FEMA for providing assistance in

## Flood Contingency Plan-2020-2023

Management will support the contingency plan by prioritizing the execution of critical activities as per CPM's plan.

10. The organization will engage with ongoing operational development projects to address the possibility for occurrence of the disaster condition to find CSR requirements will incorporate flood mitigation measures to date. Developmental plans and activities under CSR to providing flood contingency.

Management will evaluate major and minor systems, criticality given accordance to the risk raised potential and define the risk criteria/ rating based on the risk assessment per the below rating chart. It should be noted that the risk prepared by the LR Unit and the Field Offices (FOs) should be prepared separately.

#### The Major Responsibilities of CPM are as follows:

1. Develop contingency plan for general activities in heavy rainfalls.
2. Review and update the preparedness of flood response and action as per flood management.
3. Review criteria of CPM's and its responsibility as maintaining of Flood Management system.
4. Risk assessment and related audit and internal control system.
5. To develop group of CPM's for assessment for risk assessment raised in the flood management.

Flood Contingency Plan-2026-2027

**FLOOD CONTINGENCY PLAN - 2026-27**  
LALBAUGH MEMORIAL HIGH SCHOOL FOR 2026-2027

**Introduction of Lalbaugh Memorial School**

The Lalbaugh Memorial School was constructed in 1971 in the same High School District of Upper Merion, Ohio as the Lalbaugh Memorial High School. The original plan for the school was to construct a high school building with an attached gymnasium. The District also constructed a gymnasium in 1971 and a gymnasium in 1972. The District also constructed a high school building in 1973 and a high school building in 1974. The District also constructed a high school building in 1975 and a high school building in 1976. The District also constructed a high school building in 1977 and a high school building in 1978. The District also constructed a high school building in 1979 and a high school building in 1980. The District also constructed a high school building in 1981 and a high school building in 1982. The District also constructed a high school building in 1983 and a high school building in 1984. The District also constructed a high school building in 1985 and a high school building in 1986. The District also constructed a high school building in 1987 and a high school building in 1988. The District also constructed a high school building in 1989 and a high school building in 1990. The District also constructed a high school building in 1991 and a high school building in 1992. The District also constructed a high school building in 1993 and a high school building in 1994. The District also constructed a high school building in 1995 and a high school building in 1996. The District also constructed a high school building in 1997 and a high school building in 1998. The District also constructed a high school building in 1999 and a high school building in 2000. The District also constructed a high school building in 2001 and a high school building in 2002. The District also constructed a high school building in 2003 and a high school building in 2004. The District also constructed a high school building in 2005 and a high school building in 2006. The District also constructed a high school building in 2007 and a high school building in 2008. The District also constructed a high school building in 2009 and a high school building in 2010. The District also constructed a high school building in 2011 and a high school building in 2012. The District also constructed a high school building in 2013 and a high school building in 2014. The District also constructed a high school building in 2015 and a high school building in 2016. The District also constructed a high school building in 2017 and a high school building in 2018. The District also constructed a high school building in 2019 and a high school building in 2020. The District also constructed a high school building in 2021 and a high school building in 2022. The District also constructed a high school building in 2023 and a high school building in 2024. The District also constructed a high school building in 2025 and a high school building in 2026. The District also constructed a high school building in 2027 and a high school building in 2028.

**Flood Hazard Area**

The area designated as the flood hazard area of Lalbaugh Memorial School, the area designated as the flood hazard area of the District of Upper Merion, Ohio, is the area designated as the flood hazard area of Lalbaugh Memorial School. The area designated as the flood hazard area of Lalbaugh Memorial School is the area designated as the flood hazard area of Lalbaugh Memorial School. The area designated as the flood hazard area of Lalbaugh Memorial School is the area designated as the flood hazard area of Lalbaugh Memorial School.

## Flood Contingency Plan-2020-2023

and the LMA team directly from support to help (including advice on what the people involved) will see through the incidents and TDRIT members. They are also prepared to take necessary action to dealing of the people who reported the high level and also involve the high level staff and TDRIT members. They also have the back-up plan to support (including) to TDRIT to coordinate with government or other people in the area please.

DRIT will also have and other equipment to be kept always ready for repair and other equipment. The support will be to the staff to take necessary and other equipment. Incident team will also be ready provide only the support services. Training should also be included in the emergency response for other IT incidents and plans.

All staff will have their own and mobile phone devices kept updated for immediate action and other services. DRIT will also have and other equipment to be kept always ready for repair and other equipment.

### DRIT

The incident response team will be available 24/7/365 to the company.

### DRIT Incident Response

Incident response team will be available 24/7/365 to the company.

### DRIT Incident Response Management

The incident response team will be available 24/7/365 to the company.

Flood Contingency Plan-2026-2027

**FLOOD CONTINGENCY PLAN - 2026-27**  
**HERIYAN RUMAH CERUUDIR 016-27**

**Introduction of the Flood Contingency Plan:**

The Heriyah Rumah Ceruudir is a residential area located in the coastal region of Heriyah. It is situated along the coastline of Heriyah, and is surrounded by the sea on three sides. The area is prone to flooding, especially during the rainy season. The Flood Contingency Plan is designed to minimize the damage caused by flooding and to ensure the safety of the residents and the property.

**Key Facts about the Flood Contingency Plan:**

The Flood Contingency Plan is a document that outlines the procedures and actions to be taken in the event of a flood. It is designed to minimize the damage caused by flooding and to ensure the safety of the residents and the property. The plan is based on the current conditions of the area and is subject to revision as the conditions change.

The Flood Contingency Plan is a document that outlines the procedures and actions to be taken in the event of a flood. ## Flood Contingency Plan-2020-2025

### High Hazard Areas:

The areas of High Hazard and Moderate Hazard are the residential areas along the Riverbank of the River Kany and Kany river from mouth to confluence of the Riverbank. The Kany and Kany in the High Hazard Areas are 1 km more than that area. The flood-prone area extend through mouth part of the Riverbank.

(A) High Vulnerable villages in the flood-prone area (villages in flood-prone area) listed in category of High Hazard areas are given in following table. Total population and total village area of High Hazard areas are given in following table. The area of High Hazard areas are given in following table.

Sl. No.	Village	Population			
		Female	Male	Other	Total

IRR Contribution is given in percentage and will be in change with scenario.

Flood Contingency Plan-2026-27

**FLOOD CONTINGENCY PLAN - 2026-27**  
**HIRAGAOIN REVENUE CIRCLE FOR 2026-27**

Introduction of the Flood Contingency Plan:

The Government of Karnataka has issued the order (No. 100) of the Government of Karnataka, Bangalore dated 01/07/2024, by which the Government of Karnataka has directed the Government of Karnataka to prepare a Flood Contingency Plan (FCP) for the State of Karnataka. The Government of Karnataka has issued the order (No. 100) of the Government of Karnataka, Bangalore dated 01/07/2024, by which the Government of Karnataka has directed the Government of Karnataka to prepare a Flood Contingency Plan (FCP) for the State of Karnataka.

Objectives of the Flood Contingency Plan:

The Flood Contingency Plan (FCP) is a document that outlines the measures to be taken to prevent, mitigate, and recover from the effects of flooding. The FCP is a document that outlines the measures to be taken to prevent, mitigate, and recover from the effects of flooding.

Scope: This Flood Contingency Plan (FCP) is prepared for the Government of Karnataka, Bangalore. The Flood Contingency Plan (FCP) is prepared for the Government of Karnataka, Bangalore.

Who is Responsible for the FCP? The Government of Karnataka, Bangalore is responsible for the Flood Contingency Plan (FCP). The Government of Karnataka, Bangalore is responsible for the Flood Contingency Plan (FCP).

Approved by: The Government of Karnataka, Bangalore. The Government of Karnataka, Bangalore. The Government of Karnataka, Bangalore.

Approved by: The Government of Karnataka, Bangalore. The Government of Karnataka, Bangalore. The Government of Karnataka, Bangalore.

Key Features:

1. Flood Contingency Plan (FCP) Document

2. Flood Contingency Plan (FCP) Document

3. Flood Contingency Plan (FCP) Document

4. Flood Contingency Plan (FCP) Document

## Flood Contingency Plan-2020-2027

### Table 1: List of Flood Contingency Fund for Flood Insurance:

Being many more details covered under Insurance, Insurance is separately detailed in the next Group's presentation. It would be helpful to know that the Flood Contingency Fund is primarily utilized for:

### Group 1: Flood Insurance Contingency Fund:

Sl. No.	Year of FY 2020-2027	Amount of Contingency Fund	Category of FY 2020-2027	Signature No.
1	2020-2021	Rs. 1000000	2020-2021	2020-2021
2	2021-2022	Rs. 1000000	2021-2022	2021-2022
3	2022-2023	Rs. 1000000	2022-2023	2022-2023
4	2023-2024	Rs. 1000000	2023-2024	2023-2024

### Group 2: Flood Relief Contingency:

Sl. No.	Name	Designation	Category No.
1	Mr. Anil Kumar	Chief Executive Officer	2020-2021
2	Mr. Anil Kumar	Chief Executive Officer	2021-2022
3	Mr. Anil Kumar	Chief Executive Officer	2022-2023
4	Mr. Anil Kumar	Chief Executive Officer	2023-2024
5	Mr. Anil Kumar	Chief Executive Officer	2024-2025
6	Mr. Anil Kumar	Chief Executive Officer	2025-2026
7	Mr. Anil Kumar	Chief Executive Officer	2026-2027
8	Mr. Anil Kumar	Chief Executive Officer	2027-2028

### Group 3: Flood Relief Contingency Fund:

Sl. No.	Name	Designation	Category No.
1	Mr. Anil Kumar	Chief Executive Officer	2020-2021
2	Mr. Anil Kumar	Chief Executive Officer	2021-2022
3	Mr. Anil Kumar	Chief Executive Officer	2022-2023
4	Mr. Anil Kumar	Chief Executive Officer	2023-2024

### Group 4: Flood Relief Contingency:

Sl. No.	Name	Designation	Category No.
1	Mr. Anil Kumar	Chief Executive Officer	2020-2021
2	Mr. Anil Kumar	Chief Executive Officer	2021-2022

## FLOOD CONTAINGENCY PLAN - 2026-27

### MIRJAPETA MUNICIPAL CHIEF OFFICER

**INTRODUCTION**

Mirjapeta Revenue Circle is geographically located in the north of the Mirjapeta revenue village in Mirjapeta District of the state of Andhra Pradesh. It is located in the north of the Mirjapeta village. Mirjapeta is surrounded by Jagtial and other villages. Mirjapeta Revenue Circle is bounded by the Mirjapeta Revenue Circle (North) and the Mirjapeta Revenue Circle (South). Mirjapeta Revenue Circle is bounded by the Mirjapeta Revenue Circle (North) and the Mirjapeta Revenue Circle (South).

Mirjapeta Revenue Circle is a revenue circle. It is a part of the Mirjapeta District of the Mirjapeta Revenue Circle.

**Flood Risk about the revenue circle**

1.	Area of the revenue circle	1000000
2.	Area of the revenue circle	1000000
3.	Area of the revenue circle	1000000
4.	Area of the revenue circle	1000000
5.	Area of the revenue circle	1000000
6.	Area of the revenue circle	1000000
7.	Area of the revenue circle	1000000
8.	Area of the revenue circle	1000000

## Disaster Contingency Plan-2020-2021

### DEPARTMENT OF EDUCATION, HONGKONG EDUCATIONAL OFFICIALS' HANDBOOK

#### **INTRODUCTION**

This document provides a structured plan of preparation and best practice to address disaster preparedness management. The Disaster Contingency Plan (DCP) of a school is developed and maintained by the school in accordance with the Education Ordinance (EO) and the Education (Disaster Preparedness and Emergency Management) Regulation (EDPMR) and the Education (Disaster Preparedness and Emergency Management) Code of Practice (EDPMR Code of Practice).

#### **DISASTER CONTINGENCY PLAN**

A school should have a disaster contingency plan in place to address the possibility of a disaster occurring on the school premises. The plan should be developed and reviewed regularly to ensure it remains up-to-date and effective. The plan should be developed by the school management team in consultation with the staff and should be reviewed at least once a year. The plan should be reviewed and updated in the event of a major disaster or a significant change in the school's circumstances. The plan should be reviewed and updated at least once a year.

#### **THE OBJECTIVE OF THE DCP IS TO:**

The primary objective of the DCP is to ensure the safety of all school staff and students. The DCP should also aim to ensure the continuity of the school's operations and to ensure that the school is able to respond effectively to a disaster. The DCP should also aim to ensure that the school is able to provide support and assistance to staff and students who are affected by a disaster. The DCP should also aim to ensure that the school is able to provide support and assistance to the community in the event of a disaster.

#### **Profile of the Department:**

The Department is a part of the Education Department.

Area	1	2	3	4	5	6	7	8	9	10	11	12
Area												

The Department is a part of the Education Department. The Department is responsible for the implementation of the DCP. The Department is also responsible for the review and update of the DCP. The Department is also responsible for the provision of support and assistance to staff and students who are affected by a disaster.

Apply the provisions of the Education (Disaster Preparedness and Emergency Management) Regulation (EDPMR) and the Education (Disaster Preparedness and Emergency Management) Code of Practice (EDPMR Code of Practice).

## Flood Contingency Plan-2018-2022

### NUMBER OF COPY PROVIDED TO EACH DEPARTMENT DISTRICT

Sl. No.	Dept.	OP	UP	Managers	Joint Secretary	Total
1	General Staff	05	05	05	05	20
2	SIHQ	05	11	05	05	26
3	Sub-Districts	05	100	11	05	121
4	Offices	05	05	11	05	26
	<b>TOTAL</b>	<b>20</b>	<b>121</b>	<b>32</b>	<b>20</b>	<b>193</b>

### OBJECTIVE OF THE DISASTER MANAGEMENT FLOOD PLAN

The key objectives of the Department's Disaster Management Plan (DMP) are:

1. To identify the vulnerable systems or groups of population which require special measures during disaster.
2. To assess the disaster resources and capacity building of the community including the disaster preparedness awareness assessment on the disaster to assess its vulnerability.
3. To provide disaster psychological and relief assistance to the community specially the children who are affected children in different phases of disaster.
4. To develop proper plan of recovery in the disaster and disseminate the objectives of the preparedness plan (pre-disaster) and reconstruction plan (post-disaster).
5. To provide information, suggest and treatment of symptoms from the concerned officials to disaster management authorities.
6. To ensure effective recovery development, building programme of disaster management in the vulnerable and community.
7. To take care that the systems of disaster management will be disaster ready disaster.
8. To develop disaster plan or guidelines and adopt them one of the disaster or natural disaster.
9. To improve the standards of preparedness and environmental safety, habitable or disaster.
10. To develop awareness for involvement of multi-institutional disaster management, DMP and community disaster management plan.
11. To ensure updating of disaster management.

### VULNERABILITY OF THE DEPARTMENTS TO FLOOD DISASTERS

Flood Disaster have been identified as great hazard to Managerial staff affecting people's health, welfare, safety, production, welfare, vulnerability and social health. The vulnerability of flood may be summarized as follows points:

## Global Contingency Plan-2016-2022

### 3. Objectives

To ensure the long-term success of the institution and to guarantee world class departmental academic feature, quality and value education, performance, growth and development of the student-cum-staff and provision of CRM (Customer Care) Services.

#### 3.1 Organizational activities :

##### 3.1.1 Fire Plan

##### 3.1.1.1 Evacuation Plan :

- a. All employees, visiting programmes and students (B.Tech to Ph.D) and library employees (P.M.S).
- b. Evacuation routes/emergency exits.
- c. Evacuation routes / procedures / if possible participants to take by hand for each floor.

##### 3.1.1.2 Fire response and Mitigation Plan :

- a. Keeping fire of first occurrence as regular exercise, once in one floor will be regularly alerted for students to IEM for safety instructions by fire alarm indicated and the situation. It will continue for all floors from a fire alarm to be generated and immediately.
- b. Evacuating your emergency exit at the time, location of adjacent rooms, stairs & doors and fire alarm program for fire evacuation and treatment.
- c. Evacuating students by reading fire and drug response protocols for fire alarm and alertness for the kind of emergency (type of position of fire).
- d. Operating an early warning mechanism with the help of department / House Administration.
- e. Warning and fighting the outbreak of major fire/department involvement to ensure the emergency exit.
- f. Evacuating students of floor through routes and fire alarm program of fire escape.

**Emergency Response Plan during Disaster (Fire) :** Trigger Mechanism for response through alarm.

Sr. No.	Activity / Training Programme on	Frequency / Date	Int. of Participants	Staff Training	Resource Person
1	Work on Environment and Safety Development and Management	Once / Week / Day	100%	To be scheduled	Faculty and Staff / Support Staff
2	Fire Safety	Once / 6 Months	100%		Faculty / Staff
3	Accidents prevent by using appropriate safety of laboratory	Once / 6 Months	100%		Faculty / Staff
4	Accident Emergency Response and Management in field and initial control measure	Once / 6 Months	100%		Faculty and Staff / Students & Support Staff

## Class Contingency Plan-2026-2027

1. Attendance for absence of any staff for more than 10 days. (100% staff for each of the 180 days)
2. Response Department: MHA & HR.
3. Preparation of incident report and action plan.
4. Secondary support for staff members.
5. A Local Council District Agreement (LCA) will be put in place to ensure
6. Adequacy for absence of any staff for more than 10 days. (100% staff for each of the 180 days)
7. Response Department: MHA & HR.
8. Preparation of incident report and action plan.
9. Secondary support for staff members.
10. A Local Council District Agreement (LCA) will be put in place to ensure

### 100% Paid Hours

#### A. Recovery Plan

1. Provide additional support to provide better services and help the staff to return to normalcy.
2. Provide extra support for staff members.
3. Provide extra support for staff members.
4. Provide extra support for staff members.
5. Provide extra support for staff members.
6. Provide extra support for staff members.
7. Provide extra support for staff members.
8. Provide extra support for staff members.
9. Provide extra support for staff members.
10. Provide extra support for staff members.

#### B. Special Measures

Category	Measure
1. Substitution (temporary) and Job Redesign	Substitution of staff members and job redesign for the staff and on the other hand, ensure that the staff members are not affected.
2. Temporary Staff	Temporary staff members will be recruited to support the staff members.
3. Additional Staff	Additional staff members will be recruited to support the staff members.
4. Additional Staff	Additional staff members will be recruited to support the staff members.

## Covid Contingency Plan-2020-2021

Govt. of Karnataka

### OFFICE OF THE DISTRICT AGRICULTURAL OFFICER

(Government of Karnataka, District of Mysuru, Taluk of Srirangapatna, Taluk Office of Srirangapatna)

#### Summary

### PUBLIC HEALTH ENGINEERING DEPARTMENT

#### MEMORANDUM

#### Flood Contingency Plan 2016-2022

#### INTRODUCTION

The proposed plan is for the provision of public health engineering and water supply services during flood. The cost is estimated to be Rs. 6000000.00. The plan is to provide the services of public health engineering and water supply during flood. The plan is to provide the services of public health engineering and water supply during flood. The plan is to provide the services of public health engineering and water supply during flood.

#### OBJECTIVE

The objective of the plan is to provide the services of public health engineering and water supply during flood. The plan is to provide the services of public health engineering and water supply during flood. The plan is to provide the services of public health engineering and water supply during flood. The plan is to provide the services of public health engineering and water supply during flood.

#### Source of Funds which are available for the plan

The Government of India has provided the following amount for the plan:

- (i) Government of India - Government Grants
- (ii) Government of India - Government Grants
- (iii) Government of India - Government Grants
- (iv) Government of India - Government Grants
- (v) Government of India - Government Grants

## Flood Contingency Plan-2018-2022

Whenever any part of the following information is identified by the responsible authority for the event or flood as being at risk then:

### (i) the responsible authority shall:

- (a) shall have assessed the emergency situation as being either major or not, (depending on the level of risk) and
- (b) shall have assessed the risk to be:

- (i) Minimal (Minority of the population affected) or
- (ii) Major (Majority of the population affected) or

(Source: ICA, 2011)

### (ii) Assessment of vulnerability of Toluca in probable flood zones:

No.	Area	Risk Level	No. of Residents

### (iii) Post Flood Situation:

#### (a) Immediate actions:

It is necessary to establish the following order of priority: immediately after cessation of flooding, there is an assessment of the damage to the infrastructure, including the WASH (Water, Sanitation and Hygiene) services, by personnel trained in the assessment of damage and the identification of the needs of the population.

- (b) The assessment of the damage to the infrastructure has also been included in the WASH and the assessment of the damage to the infrastructure has also been included in the WASH and the assessment of the damage to the infrastructure has also been included in the WASH.

#### (c) Recovery:

A contingency plan is essential to ensure the recovery of the infrastructure and to ensure the quality of the services provided to the population, including the assessment of the damage to the infrastructure.

### Annex 1: Flood Contingency Plan

#### Administration:

  - g) Glasgow Child Welfare Unit, Glasgow: 01753 333333
  - h) Glasgow Child Welfare Unit, Glasgow: 01753 333333
  - i) Glasgow Child Welfare Unit, Glasgow: 01753 333333

### **13.5. DPA's**

All DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.

1. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
2. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
3. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
4. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
5. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
6. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
7. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
8. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
9. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
10. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
11. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
12. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
13. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
14. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.
15. The DPA's will be subject to a review by the relevant commissioning body (LSC) at least once a year (or more often) to ensure that the services are still relevant to the needs of the children.

## Child Contingency Plan-2026-2027

### Following the Attack:

- (a) All children present during the incident will be treated and supported by the following systems for group support.
- (b) The children and staff have had appropriate training to ensure safety, provide first aid facilities and to evacuate.
- (c) All children are supported by the school's pastoral staff in accordance with the policy and the school's child protection policy.
- (d) If any child/young child has any behavioural issues, these should always be treated in full in accordance with the school's behaviour policy and the school's child protection policy.

3. The contingency plan is to be implemented in the event of a major outbreak of a pest or disease.
4. The contingency plan is to be implemented in the event of a major outbreak of a pest or disease.
5. The contingency plan is to be implemented in the event of a major outbreak of a pest or disease.
6. The contingency plan is to be implemented in the event of a major outbreak of a pest or disease.
7. The contingency plan is to be implemented in the event of a major outbreak of a pest or disease.
8. The contingency plan is to be implemented in the event of a major outbreak of a pest or disease.
9. The contingency plan is to be implemented in the event of a major outbreak of a pest or disease.
10. The contingency plan is to be implemented in the event of a major outbreak of a pest or disease.

## Hazard Contingency Plan-2016-2022

### Suppression of fuel during disaster

No.	System	Frequency	Suppression/Control Strategy	Control Measures/Action	Time Frame/Period	Remarks
1	Leak	1-2 times	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority	During refueling	Leakage of fuel during refueling
2	Leak	1-2 times	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority	During refueling	Leakage of fuel during refueling
3	Leak	1-2 times	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority	During refueling	Leakage of fuel during refueling
4	Leak	1-2 times	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority	During refueling	Leakage of fuel during refueling
5	Leak	1-2 times	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority	During refueling	Leakage of fuel during refueling
6	Leak	1-2 times	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority	During refueling	Leakage of fuel during refueling

### Contingency plan for fuel

The following actions shall be taken in the event of a fuel leak:

#### Before flight

1	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority
2	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority
3	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority
4	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority
5	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority
6	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority
7	Leakage of fuel during refueling	1. Stop refueling immediately 2. Notify the concerned authority

#### During flight

1. Stop refueling immediately
2. Notify the concerned authority
3. Stop refueling immediately
4. Notify the concerned authority
5. Stop refueling immediately
6. Notify the concerned authority
7. Stop refueling immediately

## Global Contingency Plan 2018-2022

### 1.00 Objectives

- 1.1. To ensure, wherever it is possible, compliance with all applicable legislation by the Agency and sub-contractors in the context of the work and projects.
- 1.2. To identify legal requirements.
- 1.3. Assessment of financial strength of potential sub-contractors and suppliers.

### 2.00 MAIN LISTING

Technical Approval	None
Technical Approval	Not used
Other Approvals	None
General Terms	Not
Public Proc	Not
Use of Material Buy Order	Not

### 3.00 OTHER LISTING AT THE END OF THE PLAN (to be updated periodically)

- 3.1. Other listing at the end of the plan (to be updated periodically)

Name	Company	Country
1. Subcontractors	None	None
2. Suppliers	None	None
3. Other listing	None	None
4. Other listing	None	None
5. Other listing	None	None
6. Other listing	None	None
7. Other listing	None	None
8. Other listing	None	None

## Flood Contingency Plan-2016-2027

### WISCONSIN ELECTRICAL CONTRACTORS ASSOCIATION

#### FLOOD CONTINGENCY PLAN SUMMARY

##### **Introduction**

**Purpose of the Department.** The primary purpose of Wisconsin Flood Protection Programs Division is to enhance floodplain zoning and safety of structures in the state of Wisconsin and to coordinate with provisions of Applicable Code which give the authority to develop standards and insure the proper distribution thereof in the state of Wisconsin. The purpose is to assist the people of Wisconsin with the economic loss of more than \$1 billion, annual property and other pending loss.

##### **Flood Hazard and Vulnerability Sources**

- a. Frequency of historical Flood and Land Use data and other Flood data.
- b. Level of hazard and extent of loss to existing or future with flood water which is to be expected with floodplain zone.
- c. Estimates of historical property damage and destruction of infrastructure caused by heavy flooding under the program.

##### **Departmental Flood Response Plan**

It shall be the purpose of this plan to provide a plan for the construction of Flood and Hazardous Flood Response to be constructed.

The construction of new water protection or mitigation will decrease the vulnerability of flood plain areas.

The plan shall be a part of the Flood Hazard Response Plan and shall be a part of the Flood Hazard Response Plan and shall be a part of the Flood Hazard Response Plan.

The purpose of this plan is to provide a plan for the construction of Flood and Hazardous Flood Response to be constructed.

The plan shall be a part of the Flood Hazard Response Plan and shall be a part of the Flood Hazard Response Plan.

The plan shall be a part of the Flood Hazard Response Plan and shall be a part of the Flood Hazard Response Plan.

The plan shall be a part of the Flood Hazard Response Plan and shall be a part of the Flood Hazard Response Plan.

The plan shall be a part of the Flood Hazard Response Plan and shall be a part of the Flood Hazard Response Plan.

The plan shall be a part of the Flood Hazard Response Plan and shall be a part of the Flood Hazard Response Plan.

## Global Contingency Plan-2020-2022

### a. Essential facilities to ensure Continuity of Operations for Global-2020-2022

Head Office Offices

Sl. No.	Name of Facility (Global Office)	Company	Classification
1	Head Office, India	MMR Corporation (Private) Limited, MPPPL	Essential

Other Key facilities to ensure Continuity of Operations: Head Office Offices (constitute Support/Back Office) 400-272-0000

Sl. No.	Name of Facility (Support Office)	Type of operation	Company	Classification
1	Support	Product Support	MMR Corporation (Private) Limited, MPPPL	Essential

### JOINT DIRECTOR OF HEALTH SERVICES, MORGANTHAU

#### DISASTER CONTINGENCY PLAN-2018-2022

#### INTRODUCTION

##### Morgantown Health

The Morgantown Health Services is located in the north part of West Virginia and is managed by Robert Morgantown Health Services. It is the largest health care organization in the state of West Virginia. The Morgantown Health Services is a not-for-profit organization that provides a wide range of health care services to the community. The Morgantown Health Services is a member of the West Virginia Health Care Association (WVHCA) and the American Hospital Association (AHA).

The purpose of this plan is to provide a framework for the organization to respond to and recover from disasters. This plan is based on the National Disaster Preparedness Planning Act (NDPPA) and the West Virginia Disaster Preparedness Act (WVDPA).

4. The school will be prepared to respond to a crisis or emergency situation.
5. A Child Contingency Plan (CCP) is a plan of how the school will respond to a crisis or emergency situation.
6. The school will be prepared to respond to a crisis or emergency situation.

7. The school will be prepared to respond to a crisis or emergency situation.

8. The school will be prepared to respond to a crisis or emergency situation.

## Class Contingency Plan-2018-2019

### Activities

Attendance will be taken at the place

1. School from 8:00 am
2. Morning Roll Call
3. After School Classes

Students will be given assignments depending on the subject to be

taught during the day or regular classes will be conducted as per the normal management and discipline as usual for regular classes.

#### A. School/Institution Based Classes

1. Implementation of a 30% reduction of CBSE projects for the 2018-19 (Implementation commencing from April)
2. All class rooms will be regularly checked with
3. Fire Alarm System
4. Fire
5. First Aid
6. School/Institution will collaborate with the police
7. School/Institution will be fully equipped
8. There will be a fire alarm system in all class rooms
9. There will be a fire alarm system in all class rooms
10. There will be a fire alarm system in all class rooms
11. There will be a fire alarm system in all class rooms
12. There will be a fire alarm system in all class rooms
13. There will be a fire alarm system in all class rooms
14. There will be a fire alarm system in all class rooms
15. There will be a fire alarm system in all class rooms
16. There will be a fire alarm system in all class rooms
17. There will be a fire alarm system in all class rooms
18. There will be a fire alarm system in all class rooms
19. There will be a fire alarm system in all class rooms
20. There will be a fire alarm system in all class rooms

#### B. Out of School/Institution Based Classes

1. There will be a fire alarm system in all class rooms
2. There will be a fire alarm system in all class rooms
3. There will be a fire alarm system in all class rooms
4. There will be a fire alarm system in all class rooms
5. There will be a fire alarm system in all class rooms
6. There will be a fire alarm system in all class rooms
7. There will be a fire alarm system in all class rooms
8. There will be a fire alarm system in all class rooms
9. There will be a fire alarm system in all class rooms
10. There will be a fire alarm system in all class rooms
11. There will be a fire alarm system in all class rooms
12. There will be a fire alarm system in all class rooms
13. There will be a fire alarm system in all class rooms
14. There will be a fire alarm system in all class rooms
15. There will be a fire alarm system in all class rooms
16. There will be a fire alarm system in all class rooms
17. There will be a fire alarm system in all class rooms
18. There will be a fire alarm system in all class rooms
19. There will be a fire alarm system in all class rooms
20. There will be a fire alarm system in all class rooms

#### C. Out of School/Institution Based Classes

1. There will be a fire alarm system in all class rooms
2. There will be a fire alarm system in all class rooms
3. There will be a fire alarm system in all class rooms
4. There will be a fire alarm system in all class rooms
5. There will be a fire alarm system in all class rooms
6. There will be a fire alarm system in all class rooms
7. There will be a fire alarm system in all class rooms
8. There will be a fire alarm system in all class rooms
9. There will be a fire alarm system in all class rooms
10. There will be a fire alarm system in all class rooms
11. There will be a fire alarm system in all class rooms
12. There will be a fire alarm system in all class rooms
13. There will be a fire alarm system in all class rooms
14. There will be a fire alarm system in all class rooms
15. There will be a fire alarm system in all class rooms
16. There will be a fire alarm system in all class rooms
17. There will be a fire alarm system in all class rooms
18. There will be a fire alarm system in all class rooms
19. There will be a fire alarm system in all class rooms
20. There will be a fire alarm system in all class rooms

### Self-Review

1. School/Institution will be fully equipped
2. School/Institution will be fully equipped
3. School/Institution will be fully equipped
4. School/Institution will be fully equipped
5. School/Institution will be fully equipped
6. School/Institution will be fully equipped
7. School/Institution will be fully equipped
8. School/Institution will be fully equipped
9. School/Institution will be fully equipped
10. School/Institution will be fully equipped
11. School/Institution will be fully equipped
12. School/Institution will be fully equipped
13. School/Institution will be fully equipped
14. School/Institution will be fully equipped
15. School/Institution will be fully equipped
16. School/Institution will be fully equipped
17. School/Institution will be fully equipped
18. School/Institution will be fully equipped
19. School/Institution will be fully equipped
20. School/Institution will be fully equipped

## Class Contingency Plan-2018-2022

### 7. PURPOSE OF PLAN:

Have a clear picture of the procedures to be followed in the event of an emergency and have a plan for dealing with any type of emergency that may occur in the school building.

### 8. SCOPE OF THE PLAN (APPLICABLE AREAS):

- a) All school buildings
- b) High School Building if being renovated and temporary is required
- c) North High Building - High School may also be used during
- d) All Class - All Plant Areas or nearby areas
- e) Faculty members of school / Principal or administrator, community, high school.

### 9. DETERMINE YOUR RESPONSIBILITIES:

- School Board - School/Principal / Admin. To implement & coordinate the development of Plan & Expenses
- The members of faculty for handling the daily operations and in emergency, during school & holidays
- The government & school authorities of handling the emergency in case of emergency disaster in the school & surrounding area, departure of the students in the school area plan and evacuation (school) during emergency or natural and kind one or emergency in the school area
- Employees responsible to handle emergency cases from their own job through procedure through their respective

### 10. DETERMINE YOUR RESPONSIBILITIES:

- a) School Board/Management responsibilities:
  - 1) Establish and monitor and report progress
  - 2) Review and discuss emergency plan
  - 3) Review incident of school area or other building
  - 4) Review incident of school area or other building
  - 5) Review incident of school area or other building
  - 6) Review incident of school area or other building
  - 7) Review incident of school area or other building
  - 8) Review incident of school area or other building
  - 9) Review incident of school area or other building
  - 10) Review incident of school area or other building

### 11. ADMINISTRATION:

- a) Principal/Teacher/Staff/In. Team/In.
  - They will
  - Control the emergency team of the building and be prepared to respond
  - Carry out the emergency plan
  - Meet in building
  - Have a list of telephone numbers, addresses, names, numbers, etc. for all persons responsible for the school - other phone numbers
  - Evacuate

### 12. PHYSICAL RESPONSIBILITIES:

- a) Principal/Teacher/Staff/In. Team/In.
  - Review the emergency plan, identify and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan
  - Review the emergency plan and write up the plan

# Global Contingency Plan 2018-2022

## 15. SUMMARY:

- This Plan is a document that defines the following:
- The roles and responsibilities of the various departments and individuals involved in the plan.
- The communication channels to be used in the event of an emergency.
- The procedures to be followed in the event of an emergency.

- The purpose of this plan is to ensure that the organization is able to respond effectively to any emergency situation.
- The scope of this plan covers all employees and contractors of the organization.

## 17. OBJECTIVES:

- To ensure that the organization is able to respond effectively to any emergency situation.
- To ensure that the organization is able to maintain its operations in the event of an emergency.
- To ensure that the organization is able to protect its assets in the event of an emergency.
- To ensure that the organization is able to provide a safe and secure environment for its employees and contractors in the event of an emergency.
- To ensure that the organization is able to provide a high level of customer service in the event of an emergency.
- To ensure that the organization is able to provide a high level of employee satisfaction in the event of an emergency.
- To ensure that the organization is able to provide a high level of community support in the event of an emergency.

## 18. INTERNAL ROLES AND RESPONSIBILITIES:

- The following table defines the roles and responsibilities of the various departments and individuals involved in the plan:
- The roles and responsibilities of the various departments and individuals involved in the plan.
- The roles and responsibilities of the various departments and individuals involved in the plan.
- The roles and responsibilities of the various departments and individuals involved in the plan.
- The roles and responsibilities of the various departments and individuals involved in the plan.

## 19. RISK ASSESSMENT AND MITIGATION:

- The following table defines the risks and mitigation strategies for the various departments and individuals involved in the plan:
- The risks and mitigation strategies for the various departments and individuals involved in the plan.
- The risks and mitigation strategies for the various departments and individuals involved in the plan.
- The risks and mitigation strategies for the various departments and individuals involved in the plan.
- The risks and mitigation strategies for the various departments and individuals involved in the plan.

## 20. LEGAL AUTHORITIES:

- The following table defines the legal authorities for the various departments and individuals involved in the plan:
- The legal authorities for the various departments and individuals involved in the plan.
- The legal authorities for the various departments and individuals involved in the plan.

## 21. REVIEW AND UPDATE PROCEDURE:

- The following table defines the review and update procedure for the various departments and individuals involved in the plan:
- The review and update procedure for the various departments and individuals involved in the plan.
- The review and update procedure for the various departments and individuals involved in the plan.

## Class Contingency Plan 2018-2019

- Communicate emergency procedures
- Review safety emergency procedures
- Identify emergency exit routes
- Review fire drill protocol with the police
- Attend fire drills regularly to help students to understand

### EMERGENCY PREP PLAN

A good emergency plan is essential to ensure that all staff covering your class are fully up to date if an incident and following development of such incidents. It is essential to prepare and rehearse emergency procedures to ensure that you are ready to act in an emergency. Remember that the purpose of an effective and well-rehearsed emergency plan is to get through it smoothly.

#### 1. What is your school's fire plan?

##### 1. Prepare the Evacuation

Always have a fire drill every school term. Evacuation drills should be held every term. They are essential to ensure that all staff, students, and users of the area are fully up to date.

Remember to prepare the evacuation routes to ensure that all staff, students, and users of the area are fully up to date. Prepare an evacuation fire plan for each class, including a list of all staff, students, and users of the area.

Plan your evacuation routes. Make sure that all staff, students, and users of the area are fully up to date. Evacuation routes should be clearly marked and rehearsed. It is essential to have a clearly marked evacuation route for each class.

##### 1. Evacuation Routes

- Evacuation routes should be clearly marked and rehearsed.
- Evacuation routes should be clearly marked and rehearsed.
- Evacuation routes should be clearly marked and rehearsed.
- Evacuation routes should be clearly marked and rehearsed.
- Evacuation routes should be clearly marked and rehearsed.
- Evacuation routes should be clearly marked and rehearsed.
- Evacuation routes should be clearly marked and rehearsed.

##### 1. After Evacuation

After the evacuation, all staff, students, and users of the area should be clearly marked and rehearsed. It is essential to have a clearly marked evacuation route for each class.

##### 1. Additional Tips

- Have your evacuation routes clearly marked and rehearsed.
- Check for fire exits and ensure they are clearly marked and rehearsed.
- Consider the following guidelines from the fire safety (evacuation) board:

Prevention	Prevention
Response	Emergency Response, Evacuation, Relief, Rehabilitation, Post-flood Rehabilitation, Rehabilitation

## Florida Contingency Plan-2016-2027

### Healthcare, Trade, Mortgage, Bond Contingency Plan-2016-2027

#### EMERGENCY PLAN TO MITIGATE COLLAPSE AND DAMAGE

##### 1. Emergency Contact List:

Each day of Florida's health, education, business, and government "open" time will be supported by emergency/backup sites and designated staff at these sites and staff in other locations across the State.

##### 2. Training and Awareness

Business, government, and other organizations that provide critical services must be included in Florida's Disaster Plan. This means all the critical services that provide critical services to other agencies and government entities must be included in the disaster plan and training program and included in the plan.

##### 3. Creation of a network of staff that is ready to work

EMERGENCY preparedness and disaster response plans must include a list of staff and sites that will be involved in the disaster response and recovery efforts.

##### 4. Emergency staff is available to work

Emergency staff must be available at all times and at all locations of the state's critical services. In addition, staff must be available to work at all times and at all locations.

##### 5. Transition to Disaster Response

The staff of the Florida Health, Trade, Mortgage, and Bond Contingency Plan will be available to work at all times and at all locations of the state's critical services during the disaster response through the Florida Contingency Plan.

### Aviation Police Radio Organization (APRO), MICHIGAN Contingency Plan-2016-2027

With plans to create a contingency plan for the Michigan Department of Transportation (MDOT) communications system, the Michigan Department of Transportation (MDOT) will be providing full-scale VHF communications in emergency, disaster, and public safety of communications in critical communications and for other purposes as follows:

#### 1. (VHF) COMMUNICATIONS

The use of emergency VHF VHF communications will be available at (VHF) COMMUNICATIONS (VHF) stations and other points, especially with emergency VHF stations and other points that are available to work at all times and at all locations of the state's critical services during the disaster response through the Michigan Department of Transportation (MDOT) Contingency Plan which is currently underway and will be completed by the end of the year.

## Plant Contingency Plan-2018-2022

### 2.11.11.11.11.

The VPP consists of Police and the 1 Unit Fire and 1 Police Incident mobile Brigades. These will normally be used for short and long term. They will usually operate through the Station and take command of the VPP Local Brigades for setting up and managing communications and fire operations during any incident. The VPP will be placed under the command and control of the Incident Commander for the day.

The following VPP officers and crew are provided across the VPP and will be used in accordance with the following:

Officer	Contingency Station	Contingency Position	Telephone
1.1	Station 11	111 Incident Commander	0120224411
		111 Contingency Officer	0120224411
2	Station 12	121 Contingency Officer	0120224412
		121 Contingency Officer	0120224412
3	Station 13	131 Contingency Officer	0120224413
		131 Contingency Officer	0120224413
4	Station 14	141 Contingency Officer	0120224414
		141 Contingency Officer	0120224414
5	Station 15	151 Contingency Officer	0120224415
		151 Contingency Officer	0120224415
6	Station 16	161 Contingency Officer	0120224416
		161 Contingency Officer	0120224416
7	Station 17	171 Contingency Officer	0120224417
		171 Contingency Officer	0120224417
8	Station 18	181 Contingency Officer	0120224418
		181 Contingency Officer	0120224418
9	Station 19	191 Contingency Officer	0120224419
		191 Contingency Officer	0120224419

## Child Contingency Plan-2018-2022

### CHAPTER -VI

#### MEMBERSHIP OF THE COMMITTEE

1. The committee will be set up by the Board, after representation from all the members of the Board and parent school school level members etc.
2. The Chair of the committee will be appointed by the Board.
3. The Board shall have a representative from all the members of the Board.
4. The Board shall have a representative from all the members of the Board.
5. The Board shall have a representative from all the members of the Board.
6. The Board shall have a representative from all the members of the Board.
7. The Board shall have a representative from all the members of the Board.
8. The Board shall have a representative from all the members of the Board.

#### ROLE AND RESPONSIBILITIES OF THE VISION OFFICERS

1. The vision officer shall report to the committee and shall coordinate with the members of the committee. They will carry out the responsibilities of the vision officer in the school and in the community.
2. The vision officer shall be responsible for the vision officer and the committee members of the school and in the community.
3. They shall meet the members of the committee and shall report to the committee.
4. They shall be responsible for the vision officer and the committee members of the school and in the community.
5. They shall be responsible for the vision officer and the committee members of the school and in the community.
6. They shall be responsible for the vision officer and the committee members of the school and in the community.
7. They shall be responsible for the vision officer and the committee members of the school and in the community.
8. They shall be responsible for the vision officer and the committee members of the school and in the community.

#### VISION OFFICER'S DUTIES

1. The vision officer will carry out the responsibilities of the vision officer in the school and in the community. They will carry out the responsibilities of the vision officer in the school and in the community.
2. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
3. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
4. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
5. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
6. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
7. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
8. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
9. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
10. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
11. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
12. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
13. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
14. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
15. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
16. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
17. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
18. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
19. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.
20. The vision officer will carry out the responsibilities of the vision officer in the school and in the community.

## Disaster Contingency Plan-2018-2022

1. Name of the Unit:	IT/Security
2. Name of the officer/CP:	Security
3. Location of the Unit:	Head Office
4. The location of CP of the CP:	Head Office
5. The level of CP: N/A. Required details of contact person (with complete phone number) provided in annexure.	

The Office/Units shall keep all records and hand over the records to the next officer in case of the hand over operation is over.

10. **YOU ARE NOT INCLUDED IN ANY DEPTOR WILL HAVE THREE HOURS AFTER 04:00 PM ONWARDS FOR 48 HOURS IN PLANNING CYCLE.**

11. **URGENT WORKS/WORKS FOR THE DEPTOR SHALL BE HANDLED BY THE DEPTOR IN THE PLANNING CYCLE.**

12. **Training to be performed by all Heads of the Deptor.**

13. **All Heads shall be trained on the following skills: computer, network and data protection, backup recovery or the related software solutions to be conducted by the Deptor.**

14. **In all conditions the network relating to the deptor shall be secured and data shall be backed up.**

15. **Cooperation with the IT/Security in planning, maintenance and testing of the disaster recovery plan shall be maintained by the deptor in all conditions.**

16. **For the purpose of the disaster recovery plan, the deptor shall be trained on all the skills and knowledge required for the disaster recovery and maintenance of such, equipment and other tools.**

17. **From the study, regular, comprehensive reports shall be filed to the department/Head Office/CP of the Deptor on a regular basis (at least once a month) on the status of the disaster recovery plan.**

## Field Contingency Plan-2018-2022

### GENERAL FIELD RELIEF CAMP MANAGEMENT

**Relief Camp Management:** Camp management is a complex activity and often requires planning a holistic approach for physical, psychological, cultural, social and spiritual well-being of camp inhabitants by establishing and maintaining appropriate systems of rules, regulations and necessary procedures for the camp.

Therefore, the following guidelines have been formulated to assist Relief and sub-committees of the organization and staff to plan, set-up and run relief camps effectively and overall management of relief camps. These guidelines are for Relief and Welfare team to follow by the Camp Authorities as per demand of the situation. Further to these documents if any other guidelines are possible to be added.

#### **Setting up of a Relief Camp**

- (a) Whenever a request from a relief authority for (R/WH/EC) will come to camp a relief camp at appropriate location as per (Relief) Sub-committee should be organized plus. As far as possible, relief camps should be set up in structured facilities.
- (b) In case when location is to be selected for the camp due to unavoidable circumstances, following points should be considered for setting it up:
  - Camp should preferably be set up in an existing building/structure/area.
  - It should be located in a safe place which has easy access to facilities, roads.
  - It should be possible to have shelter for people.
  - Adequacy of water, electricity, drainage should also be there.
  - There should be proper ventilation for safety.
- (c) When facilities about the provision of location of the camp are difficult to be provided then a makeshift structure should be made.
- (d) Emergency relief materials which include drinking water, food, bedding, blankets, sheets & blankets, baby food, mosquito repellents etc. should be organized as follows:
  - (i) Case of relief baby food should be kept with relief camp immediately.
  - (ii) Pre-arranging arrangements to make the equipment received.

#### **Storage**

- (a) The relief camp should be run for a period for a sufficient period to ensure that all relief materials are used.
- (b) Camps should be made such as, security and common of a team health and well-being.

## Child Contingency Plan-2018-2022

10. The overall programme committee should be responsible for a range of tasks. These may include:
  - 10.1. To identify what the possible impact may be possible
  - 10.2. To ensure all health education, support, treatment and prevention have been fully considered
  - 10.3. To plan a way or ways to coordinate, provision of an existing health or a service should the way be needed
  - 10.4. To ensure that all the relevant information together and accessible should be available to support any decisions that are taken
  - 10.5. To plan a way to plan to reduce and prevent health inequalities, mental problems among those most at risk
  - 10.6. To ensure that all relevant information is available
  - 10.7. To ensure that the information available for those involved is readily accessible and that the information is available to all those who need it

### General Administration of the Plan

11. The responsible officer for health, safety and risk should be supported by a designated officer for the PC/CCPC who will ultimately be responsible for general management of the health plans. It will be necessary to support the work of the responsible officer.
  - 11.1. The health and safety officer should be responsible for the management
  - 11.2. Administrative matters of the health and safety plan

### Design Officer, HSE, HAZARDOUS SUBSTANCE, HSE/STW

#### 12. Health and safety for work management (the HSE/STW, HSE, Health, HSE/STW)

- 12.1. Health and safety procedures should be established to support the management of the health and safety plan.
  - 12.1.1. A system should be developed to identify and control the health and safety risks of the work activities and materials used.
  - 12.1.2. Measures of risk assessment should be developed to identify the health and safety risks of the work activities and materials used.
  - 12.1.3. The importance of the information should be established in the work and it should be available to all the workers and the public who are affected.
  - 12.1.4. Health and safety information should be available to all the workers and the public who are affected by the work activities and materials used.
  - 12.1.5. Health and safety information should be available to all the workers and the public who are affected by the work activities and materials used.
- 12.2. The health and safety officer should be responsible for the management of the health and safety plan.
  - 12.2.1. The health and safety officer should be responsible for the management of the health and safety plan.
  - 12.2.2. The health and safety officer should be responsible for the management of the health and safety plan.
  - 12.2.3. The health and safety officer should be responsible for the management of the health and safety plan.

## Electrical Contingency Plan-2016-2017

- General Work and Safety Requirements:**
- (a) It should be ensured that an efficient program to work on contingencies has been implemented.
  - (b) Effective responsibility for management and for study areas that encompassed in scope of contract must be defined and action prescribed.
  - (c) Specific safety instructions regarding techniques and procedures involved.
  - (d) First Aid kits should be used by giving necessary instructions to the staff working at the site with PPEs and emergency procedure in such & kind.
  - (e) Proper instructions must be given about safety program, electrical safety and other requirements to be provided against the job of Electricians, cable men.
  - (f) Public should be kept informed about the work activities being performed. Adequate safety measures should be taken to ensure safety of the public in case of any emergency.

### **4.4.2 Facilities**

#### **(a) Lighting Arrangement and Illumination**

- A technical system, preferably low-voltage or (PPEs) equipment should be installed to improve the power lighting arrangement of well-ventilating and illuminated environment of the premises.
- Working methods and materials for handling provided in construction.
- Personnel or equipment, both should be arranged in sufficient numbers to do the work.
- Appropriate technical measures should properly be taken.
- Location of all equipment capacity should be marked in the field's own and equipment is checked for 24 hours.
- Equipment should be connected to the system in the prescribed order.
- Adequate arrangement for illumination, noise and control of other things should be made.

#### **(b) Water Facilities**

- Total requirement of drinking water, water for office, bath & washing of clothes and laundry should be considered from contingency plan to make necessary.
- Most of the houses in the village cannot get to have a purified and sufficient drinking water. Therefore, provision should be made to supply to supply to houses that do not get water in the same proportion. Particularly, related to TDP & other conditions for water supply, the concerned agency.

## Flight Contingency Plan-2018-2022

- All crew members shall be provided appropriate briefing
- The No. 1 Officer of the flight should be briefed by understanding their supply situation
- The cockpit crew shall ensure proper separation and recovery altitudes provided to lower levels to ensure safety for landing, holding etc.
- Supply situation going to be maintained above 200 percent
- Fuel performance under maximum power will be better than normal
- Fuel supply of every 10 minutes, top 7 fuel gauge should be checked and analyzed in the last hour of flight. If needed comments shall be given to the crew's observations.
- If necessary, suitable area that should preferably be selected. Standard procedures for safe publication (standard)
- Engine holding area shall be observed by both pilots

### Reservations

- Heavy rain should be considered a high risk
- Fuel should be minimum 10 min. and maximum 50 percent above standard
- For each flight, the maximum payload will be determined according to the flight plan
- Fuel tanks should be checked according to the procedure
- Engine status should be monitored by both pilots and crew shall be alerted in the event of engine abnormality
- Fuel tank light should be checked to make it better
- Approximate weight should be checked to the weight that is used
- Fuel flow, state of landing gear, engine and other items shall be monitored
- The other crew members to be briefed by engine engine status and maintenance efficiency
- Supplement of the fuel shall be checked regularly, it reflects that if it is not done the maximum efficiency

## Event Contingency Plan-2025-2027

### Event Change at Westbury

- All safety risk assessments, incident response procedures in the event of an attack, fire, flood and other appropriate disaster scenarios should be reviewed/updated.
- The security response plan should be reviewed/updated in the event of a change in the threat environment or other factors.
- An event programme and emergency plan should be developed that can be used in full or as a guide for a number of changing, high-risk, elements of special events programming.
- Standardised threat alerts for all emergency services and the local business community.
- Threats from more advanced means and methods (e.g. drones, cyber) will be added.
- Plans should be in place regarding and to provide support for emergency flights of staff and any other key staff.
- Plans should be in place to ensure that staff, visitors and the community around the venue are kept safe in the event of an emergency.
- An incident response plan should be developed to ensure the best communication response.
- Physical and digital security requirements should be assessed in order to monitor and detect threats to staff, visitors and the community around the venue and to ensure that the best possible response can be provided.
- It should be noted that the current, and future, plans, will be subject to the continued development of the venue and surrounding area.
- Areas of vulnerability identified by the assessment, which are not covered by the plan, should be reviewed.
- Significant changes to the venue, including any changes to the location of the venue, should be reviewed and the plan updated accordingly. It should be noted that the plan should be reviewed and updated in the event of any significant changes to the venue and surrounding area.
- Plans should be developed to ensure that the venue is able to respond to any changes to the venue and surrounding area.
- Regular updates should be provided to all relevant staff and the community around the venue to ensure that they are aware of any changes to the plan.
- The plan should be reviewed and updated in the event of any changes to the venue and surrounding area.
- The plan should be reviewed and updated in the event of any changes to the venue and surrounding area.

## Electrical Contingency Plan-2018-2022

- Arrangements to be implemented should
- Be designed to ensure that (a) safety hazards that involve an occupational fire
- Or any potential fire hazard from the test activities are eliminated,
- And that (b) any events of an emergency nature, involving major electrical equipment,
- Are dealt with promptly and healthily and expeditiously
- Through the use of well planned fire drills
- And that, in addition, these events, if required by the responsible administration,
- Be handled in a professional and efficient manner provided

### 4.1.1.1.1.1.1

- Plans to be used should be provided before setting up ground connections for the test equipment at the site.
- Plans should also take full use of existing facilities by using the appropriate test equipment for the site.
- Suitable arrangements should be made for the site.
- Plans should be approved by the responsible administration.
- Plans should be approved by the responsible administration.
- Plans should be approved by the responsible administration.

### 4.1.1.1.1.1.2

- The plans should also take account of electrical safety hazards arising in connection with the test equipment.
- A safety sign should be displayed in view of the test equipment, showing the electrical safety hazards.
- A safety sign should be displayed in view of the test equipment.
- A sign should be displayed in view of the test equipment in view of the electrical safety hazards.
- A sign should be displayed in view of the test equipment in view of the electrical safety hazards.
- A sign should be displayed in view of the test equipment in view of the electrical safety hazards.
- A sign should be displayed in view of the test equipment in view of the electrical safety hazards.
- A sign should be displayed in view of the test equipment in view of the electrical safety hazards.

## Disaster Contingency Plan-2018-2022

and sufficient number of teachers should be recruited on the spot immediately.

- If the contingency plan is activated, the school should be notified immediately by the nearest police station regarding the emergency should be served in the area.
- If a fire occurs, the fire alarm should be struck to evacuate all students of the school to the school bus.
- Good knowledge about signs and symbols is available within the school, which should be maintained.
- The school bus will be prepared for emergency evacuation and maintenance that occurs in the campus. If the school bus should be available for providing first aid always in the school campus. If vehicles are not available in the school, then use the government bus service by the school authority. Transportation can be provided from school bus.
- When school bus comes to the ground in the school campus, the position of students from vehicle, if happens. The driver will monitor at all critical and large of the emergency situation occurred.
- When an earthquake occurs, prepared the school bus evacuation in the school should be implemented. Always be ready.
- Cases of water leaks are also expected areas within school campus. However, emergency should be ready to control leak. Leaking water should be fixed at all times in emergency.
- Diseases and epidemics should be affected in one area or another physically, mentally, and socially. Children are among those who are affected and it is a threat to the psychological health of an individual and the general society of the community.
- Psychological support is needed from the family. Families, even in stressful conditions, family should be kept together. As a source of psychological support, and then the school activities, administrative and financial are should be managed for the children's education.
- Psychological consequences of disaster should be managed to prevent according to the affected persons. It should be learned that before an emergency occurs, it is necessary to identify a set of signs that can be an early indicator of an emergency environment for individual persons.

### **g) Special Arrangement for women, Children, and Physically Challenged and Elderly persons**

- Special concern on girls, children, elderly persons, and physically challenged in disaster relief plan must.
- Special arrangements and attention should be provided to them in the

## Final Contingency Plan-2018-2022

### Implementation and Monitoring/Review

- Review the system covered against different issues with the relevant personnel
- The safety and security of the system will continue to be monitored closely through existing processes
- Review Policy (Where covered by customer) will be reviewed against the system to ensure that infrastructure is protected through the system
- Security measures should be reviewed for any changes to protect delivery of services to end customer
- It should not increase total risk however security can be used to ensure that it does not increase further and it is continuously managed through the system
- Existing change can be looked against the different issues to give an overview of the risk area
- System performance in the management of issues is important to ensure the system is maintained
- The way issues should be handled in the system and given their severity of level, what can be done to ensure that the system can continue give priority to the most critical issues that can be managed by them.

### iii) Performance

- Good and bad incidents are the same, what is good is the risk being managed through good incident and bad incidents are managed. This could be further enhanced by their experience in resolving incidents or their performance without incident by part of the department or the service.
- Supporting the customer to prevent issues from occurring through service
- Support to good business
- Non-compliance should be reviewed and managed through the system
- Strong incident should be reviewed through the system
- Existing process or procedure that is not followed by customers for handling the incident should be reviewed and if not supported by the system
- The overall service, bad news or getting them should be reviewed if that fails

### iv) Security

- Security issues should be reviewed in the system through the system to ensure that the system is protected through the system

## Child Contingency Plan 2018-2022

- Public protection arrangements
- Adaptation of services to respond to the needs of children at risk
- Public should have up-to-date and clear information about the plan
- Training and information for staff to support the plan
- Specialist services should be made during the implementation of the plan
- Emergency services should be provided to support the plan
- Specialist services should be made during the implementation of the plan
- Specialist services should be made during the implementation of the plan
- Specialist services should be made during the implementation of the plan

### Media Management and Dissemination

- Local office should prepare a daily report and submit it to the Communications Director (CCD) for review
- Local office should prepare a daily report and submit it to the Communications Director (CCD) for review
- Local office should prepare a daily report and submit it to the Communications Director (CCD) for review
- Local office should prepare a daily report and submit it to the Communications Director (CCD) for review
- Local office should prepare a daily report and submit it to the Communications Director (CCD) for review
- Local office should prepare a daily report and submit it to the Communications Director (CCD) for review

### Performance, Reporting and Progress

- All the activities of the local office will be subject to a review of the performance of the local office
- Local office should submit a report to the Communications Director (CCD) for review
- Local office should submit a report to the Communications Director (CCD) for review
- Local office should submit a report to the Communications Director (CCD) for review
- Local office should submit a report to the Communications Director (CCD) for review
- Local office should submit a report to the Communications Director (CCD) for review

## Child Contingency Plan-2018-2022

- Library (other Organizations) may be contacted to arrange loans of equipment for camp operations.
- Camp operations may be kept ongoing by providing maintenance of recreational facilities on-site.
- Temporary equipment storage may be opened at the camp with the help of ECD staff or others for small children.
- Temporary substitutes for camp facilities including volunteers & staff for camp activities. This may include first aid kits, equipment, Glue sticks etc. However, NCCs may also be allocated to non emergency schools in the camp.
- ECDs & NCCs may be asked to arrange training for women on training, soft toy making, public display making etc. and for women on jaggery, ground, poultry, dairy, milk & nutrition items etc.

### Event at the Camp

- People in the camp should be encouraged to return to their homes, as the situation improves in the NCC. Transport facilities may be provided for the purpose.
- Family members should never leave the camp. Recommended at least one family member should stay back in the camp.
- A fund-raiser may be proposed and held by the girl's staff to raise additional money towards the purchase of equipment.
- All the equipment, repairs, tools, materials etc. should be kept in a safe place for future use and they must always be kept under the supervision of the NCC/ ECD staff.
- Staff positions and executive responsibilities should be documented and submitted to the post.

## Chief Contingency Plan-2018-2022

### STANDARD OPERATING PROCEDURES

#### Disaster Case Management-Asst. Secy

##### 1. Background and Purpose

The Asst. Secy. Office Management Manual (OMM), 2017, sets a robust system framework to meet the recovery needs of the United States Government. This SOP is part of a complete set of plans for ensuring continuous operations and recovery following disaster management in the OIG.

The robust, thought and only contingency planning will exist across various scenarios to be able to respond adequately to providing essential services and continuity in the many and less than optimal circumstances. It is essential that the response to the disaster is managed in a manner that is consistent with the system's ability to deliver required services and to be prepared to respond to any emergency.

The document is designed to be used as a guide for the purpose of Disaster Case Management Control System (DCMS) of the United States Government Manual 2017. It also includes the best practices and procedures to be used to ensure the continuity of operations and to ensure the use of resources to address and recover from disaster management in a manner that is consistent with the system's ability to deliver required services and to be prepared to respond to any emergency.

Some of the key considerations that may be used to ensure the continuity of operations and to ensure the use of resources to address and recover from disaster management in a manner that is consistent with the system's ability to deliver required services and to be prepared to respond to any emergency.

- To ensure the best quality service, identify the best system and to ensure the continuity of operations as required by Disaster Case Management Control System.
- To provide the ability to respond to the best management and other situations in the context of disaster and plans of response to address the management and recovery.
- To ensure the best quality service, identify the best system and to ensure the continuity of operations as required by Disaster Case Management Control System.

##### 2. Purpose of the SOP

The Standard Operating Procedure (SOP) document has been developed to support the Recovery 2017 Strategy for Disaster Case Management of the Asst. Secy. Office Management Manual 2017. The SOP provides a framework for the best management and other situations in the context of disaster and plans of response to address the management and recovery.

##### 3. Authority/Responsibility

Responsibility for the implementation of the SOP is assigned to the best management and other situations in the context of disaster and plans of response to address the management and recovery.

## Global Contingency Plan 2018-2022

### 2.1 Roles of the Board, the Director and the Local Governments and Officers of the Energy Commission (EC) and Companies (2018)

Role	Responsibilities
<b>EC</b>	• Review the status of the local governments to their legal responsibilities relating to the energy sector and the need for reform
	• Review the structure and content of the local government energy sector reform documents (EC Draft Report 2018) to ensure they represent an overall alternative 2P
	• Guide, monitor and support the local governments to ensure that all the reform documents are developed consistently and the reform implementation and follow up arrangements are in place
	• Ensure the local governments are aware of the need to ensure that the reform process, the implementation and the reform training and capacity building are fully supported
	• Develop capacity and provide technical assistance to local government in building up reform implementation capacity
	• Establish a system of being notified of any issues and concerns in relation to reform implementation
	• Provide technical support and other assistance to ensure the reform implementation documents are developed consistently and the reform implementation and follow up arrangements are in place
	• Coordinate activities of the local governments to ensure that the reform implementation is supported by the local governments to ensure that the reform implementation is supported by the local governments
	• Review the implementation and quality of the reform implementation
	• Ensure that the local governments are fully aware of the need to ensure that the reform implementation is supported by the local governments

## School Contingency Plan-2026-2027

<b>Early Phase</b>	<ul style="list-style-type: none"> <li>• Staff of the commercial and college businesses based in educational facilities, provide after hours support, which are checks of systems and disaster recovery plans and business are shared in regularity. These staff are used as resources in case of an emergency.</li> <li>• In case of an COVID-19 outbreak, emergency and crisis will have identifying a follow-up plan ready to be activated and it will have just because the financial location, or otherwise. They will be provided with necessary resources.</li> <li>• Regularly meeting with business and school to have consultation as to the administrative committee which involved in case of such affairs. The meeting will discuss the steps to making the safety and availability of the employees.</li> <li>• Review safety and safety responsibilities and responsibilities.</li> <li>• Develop and update the Risk Management Plan to include the safety including electronic communication.</li> <li>• Review and gain understanding of risks, covering of existing services through job and review of available resources at different levels.</li> <li>• Develop more meeting with the Risk Management Team and Risk Management Planning Team every quarter to discuss the operations.</li> <li>• Develop the establishment plan which will be being utilized.</li> <li>• Develop the available space including physical and virtual, the plan includes details to the ground level, floor and ceiling, their location and layout, safety including, people and plan.</li> <li>• Develop the COVID-19 Safety Plan, including all steps which will be being taken and if implemented in the business.</li> <li>• Review the current business recovery or continuity plan, identify, implement and the business.</li> <li>• Review and develop a communication plan, a plan to provide.</li> <li>• Develop business recovery or continuity plan, including the plan management.</li> <li>• Other services or products which are provided a list of services of the business.</li> <li>• Review and determine if the plan includes the plan.</li> </ul>
<b>Pre-Phase</b>	<ul style="list-style-type: none"> <li>• Conduct a review of the Risk Management Plan to determine if it is a review by the business.</li> <li>• Review current equipment to provide services, including and to determine if the plan is in the plan and the plan.</li> <li>• Review current equipment and plan to provide services.</li> <li>• Review the plan to determine if the plan is in the plan.</li> <li>• Review current equipment to determine if the plan is in the plan.</li> <li>• Review current equipment to determine if the plan is in the plan.</li> </ul>

## Flood Contingency Plan-2018-2023

<b>Key Notes</b>	<ul style="list-style-type: none"> <li>• Contingency plan for the scenario of possible interruption of the supply of water</li> <li>• Contingency plan for the scenario of possible interruption of the supply of electricity</li> <li>• Contingency plan for the scenario of possible interruption of the supply of gas</li> <li>• Contingency plan for the scenario of possible interruption of the supply of mobile phone services</li> <li>• Contingency plan for the scenario of possible interruption of the supply of internet services</li> <li>• Contingency plan for the scenario of possible interruption of the supply of other services</li> </ul>
----------------------	---

### 2.1.2 Implementation Plan

Task	Responsibility
<b>Key Notes</b>	<ul style="list-style-type: none"> <li>• Contingency plan for the scenario of possible interruption of the supply of water</li> <li>• Contingency plan for the scenario of possible interruption of the supply of electricity</li> <li>• Contingency plan for the scenario of possible interruption of the supply of gas</li> <li>• Contingency plan for the scenario of possible interruption of the supply of mobile phone services</li> <li>• Contingency plan for the scenario of possible interruption of the supply of internet services</li> <li>• Contingency plan for the scenario of possible interruption of the supply of other services</li> </ul>
<b>Key Notes</b>	<ul style="list-style-type: none"> <li>• Contingency plan for the scenario of possible interruption of the supply of water</li> <li>• Contingency plan for the scenario of possible interruption of the supply of electricity</li> <li>• Contingency plan for the scenario of possible interruption of the supply of gas</li> <li>• Contingency plan for the scenario of possible interruption of the supply of mobile phone services</li> <li>• Contingency plan for the scenario of possible interruption of the supply of internet services</li> <li>• Contingency plan for the scenario of possible interruption of the supply of other services</li> </ul>
<b>Key Notes</b>	<ul style="list-style-type: none"> <li>• Contingency plan for the scenario of possible interruption of the supply of water</li> <li>• Contingency plan for the scenario of possible interruption of the supply of electricity</li> <li>• Contingency plan for the scenario of possible interruption of the supply of gas</li> <li>• Contingency plan for the scenario of possible interruption of the supply of mobile phone services</li> <li>• Contingency plan for the scenario of possible interruption of the supply of internet services</li> <li>• Contingency plan for the scenario of possible interruption of the supply of other services</li> </ul>

## Child Contingency Plan 2016-2027

<b>Copy Owner</b>	<ul style="list-style-type: none"> <li>• Be responsible for the local area. Solution and Support (SAS) within jurisdiction of the unit area.</li> <li>• Develop and lead with the implementation of the Contingency</li> <li>• Implement appropriate measures to include location of national level meeting facilities in range of the current national production demand.</li> <li>• Supervise the implementation plan (Lead Engineer and the staff to ensure             <ul style="list-style-type: none"> <li>• availability of water (SAS procedures under 1 hour turn by 20 minutes)</li> <li>• safety of water storage facilities (maximum of 2000) before tank</li> <li>• adequate storage and recovery facilities as set out in plan (Maximum of 10000 litres for the proposed national supply)</li> <li>• water use and storage plans</li> <li>• water use and storage plans</li> <li>• storage facilities and delivery plans</li> <li>• water storage of water used</li> <li>• water use and storage of water used for a whole period for a proposed location.</li> </ul> </li> <li>• Implement appropriate measures as outlined in the food risk contingency management guidelines introduced at DVB (National (A-Area)).</li> <li>• Report to the Risk Copy Meeting Team. IE will specifically monitor the quality of the WSR facilities and monitor the water usage, provide the guidelines and a flow chart to help in improvement and provide SASF recommendations to DVA/DO (Set by any SASF related requirement with the unit area).</li> <li>• Report back to the management team if it is not appropriate to the water usage mentioned by the unit area.</li> <li>• Take up the contact information with Direct administration in the water infrastructure.</li> </ul>
<b>Any Owner</b>	<ul style="list-style-type: none"> <li>• Ensure the compliance of the SASF (National) to ensure the plan is as per need.</li> <li>• Ensure the plan water storage is not around long along with other related areas for the emergency.</li> <li>• Ensure a delivery to the proposed offices in what way and what time to ensure it is safe.</li> </ul>

## School Contingency Plan-2018-2022

	<p>ensuring that training meets high health standards, proper health risk and risk communication is designed proactively and is critical to health goals.</p> <ul style="list-style-type: none"> <li>• Ensure availability, transportation and use of food service supplies can be normal in disrupted times.</li> <li>• Monitor any disruption in health service delivery and provide opportunities to engage school in available alternatives given circumstances.</li> <li>• Ensure use of specialized medical professionals, nurses, counselors, podiatrists and other qualified personnel in care.</li> <li>• As part of the Patient Care Monitoring Team, JPHS will specifically monitor the quality of the health service activities in the school campus and make adjustments to the program as needed to improve and provide JPHS recommendations to ACH for any health-related requirements in the community.</li> <li>• Ensure that all the information gathered is shared as needed in the event support is needed by the community.</li> <li>• Reporting of outbreaks in a specific area will be quickly made.</li> <li>• Monitor signs of stress, trauma and other long-term and short-term effects in the school campus. This will involve plans of response and support with the long program.</li> <li>• Contact special services when necessary and they make referrals to staff or other entities as needed when a disruption or other special situation occurs.</li> <li>• Payment of health care services in the community.</li> <li>• Referring to any assistance provided through the program.</li> <li>• Ensure the collaboration with the Director of non-governmental organizations, private practitioners, etc.</li> </ul>
<b>Plan Review</b>	<ul style="list-style-type: none"> <li>• Ensure that each of the response teams have been trained with appropriate content and that classes is provided by the subject with the go plan to that school level, provide campus as needed.</li> <li>• Provide a status report to the JPHS on a regular basis as to the development of contingency activities.</li> <li>• Conduct a planning for the response activities in the event that all are able to respond in time.</li> </ul>

## School Contingency Plan-2018-2022

### 1) School District Emergency Plan participants in Schools – Department of Emergency Services

Phase	Responsibility
<b>Pre-Event</b>	<ul style="list-style-type: none"> <li>• Coordinate with EOC (2004-2005) Districtwide review of disaster readiness of schools</li> <li>• Coordinate with the local police, fire and Emergency Management including the fire, police, EMS, WSP, DCS, Nursing and Red Cross and for training, preparation and delivery of disaster response information and plans for school staff and EOC</li> <li>• Develop order of Training and the Training List as per disaster risk assessment and risk assessment to be following:               <ol style="list-style-type: none"> <li>a. Address the need to coordinate with community resources</li> <li>b. Age appropriate evacuation and sheltering procedures for children in the area</li> <li>c. Capacity emergency management training for school staff management</li> <li>d. Map evacuation routes, shelter locations, assembly areas, evacuation routes of entire school, school bus routes, evacuation routes, and evacuation routes for children in the area</li> <li>e. Coordinate with Departments of Local Police, Health and other school emergency services as required</li> </ol> </li> <li>• Conduct assessment of vulnerability of facility, location of schools and other facilities in proximity to schools</li> <li>• Develop training of participating personnel in Emergency response with a minimum number of training personnel, including fire, law enforcement and sheltering units of school for disaster plans</li> <li>• Develop facilities of participating emergency services that include fire, police, emergency services, health, health services for school staff, and evacuation routes of school staff and children of evacuation plans</li> <li>• Develop evacuation routes for school staff and children</li> </ul>
<b>Event Response</b>	<ul style="list-style-type: none"> <li>• Be responsible for the school disaster plan and the plan</li> <li>• Coordinate with EOC &amp; EOC (2004-2005) in disaster situation review &amp; disaster plan and the plan</li> <li>• Coordinate with the fire, police, EMS and other emergency services and the school staff to coordinate the disaster plan</li> <li>• Monitor the situation and coordinate with the fire, police, EMS and other emergency services in the disaster plan</li> <li>• As part of the disaster plan, including the EOC (2004-2005) all emergency services for schools of the disaster plan, including the fire, police, EMS and other emergency services for schools of the disaster plan and the EOC (2004-2005) in disaster situation review &amp; disaster plan and the plan</li> <li>• Reporting of the disaster plan and the plan as required in the disaster plan and the plan</li> </ul>
<b>Post-Event</b>	<ul style="list-style-type: none"> <li>• Conduct a disaster plan to the EOC (2004-2005) in disaster situation review &amp; disaster plan and the plan</li> <li>• Contact the EOC (2004-2005) in disaster situation review &amp; disaster plan and the plan</li> <li>• Contact the EOC (2004-2005) in disaster situation review &amp; disaster plan and the plan</li> </ul>

## Eli Lilly Contingency Plan-2018-2022

### 11.11 Business Impact Office - Global Business Response Activity of 2020

Phase	Responsibility
Pre-Event	<ul style="list-style-type: none"> <li>1. To all sites to make them to ensure a common and clear understanding of the scope and objectives for pandemic preparedness</li> <li>2. Develop a working list of sites</li> <li>3. Develop all the sites the treatment plans</li> <li>4. Review the preparedness and if not appropriate, the health care contingency</li> <li>5. Responsibility for starting contingency plan implementation</li> <li>6. Review the COVID-19/2020, or other sites and ensure it covers the necessary elements</li> <li>7. Establish a review of work with multiple and regular status calls at this period/phase and report all information to management</li> <li>8. Develop and implement procedures for supply safety of necessary substances of use and management of resources per COVID-19</li> <li>9. Develop a work plan for production and non-production sites to help build to allow during the outbreak</li> <li>10. Develop and test if allowed under process building existing process, understand if necessary, ensure it is used for testing under control in treatment and other areas</li> <li>11. Review and understand operational issues of each site/department/region</li> <li>12. Review COVID-19 status of integrated sites and how much it can help and understand the situation</li> <li>13. Review COVID-19 understanding and capabilities</li> <li>14. Develop all necessary infrastructure/elements and ensure they are well understood</li> <li>15. Develop and test the supply chain demonstrating capabilities</li> <li>16. Review and understand the operational issues of the health care working sites</li> <li>17. Review the status of resources assigned/allocated by companies/ sites</li> <li>18. Develop and test ability to deliver all necessary materials/resources and understand if needed for implementation</li> <li>19. Review and ensure the supply/management resources are well understood</li> <li>20. Review progress by COVID-19/2020 by reviewing the scope</li> </ul>
Event	<ul style="list-style-type: none"> <li>1. Review the supply chain status including existing and contingent IT for supply and if it is operational/contingency status</li> <li>2. Develop and report to COVID-19/2020 supply chain status and bring it to the attention of all critical stakeholders if it is necessary</li> <li>3. Develop approach to managing all the management and operational issues in real time</li> <li>4. Review COVID-19 status of the full manufacturing manufacturing activities and supply chain/department</li> </ul>
Post-Event	<ul style="list-style-type: none"> <li>1. Review the supply chain status including existing and contingent IT for supply and if it is operational/contingency status</li> <li>2. Develop and report to COVID-19/2020 supply chain status and bring it to the attention of all critical stakeholders if it is necessary</li> <li>3. Develop approach to managing all the management and operational issues in real time</li> <li>4. Review COVID-19 status of the full manufacturing manufacturing activities and supply chain/department</li> </ul>

### 11.12 Business Impact Office

Phase	Responsibility
Pre-Event	<ul style="list-style-type: none"> <li>1. Review the supply chain status including existing and contingent IT for supply and if it is operational/contingency status</li> <li>2. ## Blood Contingency Plan 2016-2022

Task	Responsibility
1	Develop a Blood Contingency Plan 2016-2022
	Identifying all supply chain & operational dependencies pertaining to blood
	Identify current (2016) and other issues that affect blood products in the event of national emergency
	Identify current and projected (2016-2022) all potential supply chain issues
	Identify supply chain issues in other UK locations where blood is used
	Identify the potential (2016-2022) all UK Blood Service stock issues and their mitigation
	Identify all the other supply chain issues that could affect the supply of blood and its components
	Identify the potential supply of blood and its components
	Identify all the potential supply of blood and its components
	Identify the potential supply of blood and its components
2	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components

### 11.11 Review (Site Office)

Task	Responsibility
1	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components
	Identify the potential supply of blood and its components

# Global Contingency Plan 2020-2022

Approved:

**Managing Head (and Chair) in context of COVID-19 outbreak in Africa**

Issued under: [Internationalising Curriculum](#) April 2020

It is essential that we are clear on the nature of the COVID-19 outbreak and the potential impact it could have on our business and on the ongoing COVID-19 situation across the globe. We have also identified some key risks. Management Actions are detailed in Appendix 1002 of the Global Supply Management Manual. It is critical to be clear on our overall approach to our COVID-19 response. The following is our overall approach to risk in the context of the outbreak. The document will be used by all Global Supply Management leaders across Africa to ensure that we have a consistent approach to our supply chain during these times.

Appendix 1002 provides a summary of our Supply Management actions across Africa:

1. **Global Supply and Procurement Capacity** to be assessed to ensure supply continuity and reduce exposure to the current pandemic impact on our operations globally. A review is required across the globe covering Demand, Supply and Capacity to ensure that we have a clear understanding of our supply network. Any gaps should be identified at least bi-weekly at Global Supply and given to the local teams.
2. **Global Demand and the possibilities** of supply from alternative sources to be assessed to ensure we have a clear understanding of our supply network and the impact of the current pandemic on our operations.
3. **Global Supply and Procurement Capacity** to be assessed to ensure supply continuity and reduce exposure to the current pandemic impact on our operations globally. A review is required across the globe covering Demand, Supply and Capacity to ensure that we have a clear understanding of our supply network. Any gaps should be identified at least bi-weekly at Global Supply and given to the local teams.
4. **Global Supply and Procurement Capacity** to be assessed to ensure supply continuity and reduce exposure to the current pandemic impact on our operations globally. A review is required across the globe covering Demand, Supply and Capacity to ensure that we have a clear understanding of our supply network. Any gaps should be identified at least bi-weekly at Global Supply and given to the local teams.
5. **Global Supply and Procurement Capacity** to be assessed to ensure supply continuity and reduce exposure to the current pandemic impact on our operations globally. A review is required across the globe covering Demand, Supply and Capacity to ensure that we have a clear understanding of our supply network. Any gaps should be identified at least bi-weekly at Global Supply and given to the local teams.
6. **Global Supply and Procurement Capacity** to be assessed to ensure supply continuity and reduce exposure to the current pandemic impact on our operations globally. A review is required across the globe covering Demand, Supply and Capacity to ensure that we have a clear understanding of our supply network. Any gaps should be identified at least bi-weekly at Global Supply and given to the local teams.
7. **Global Supply and Procurement Capacity** to be assessed to ensure supply continuity and reduce exposure to the current pandemic impact on our operations globally. A review is required across the globe covering Demand, Supply and Capacity to ensure that we have a clear understanding of our supply network. Any gaps should be identified at least bi-weekly at Global Supply and given to the local teams.
8. **Global Supply and Procurement Capacity** to be assessed to ensure supply continuity and reduce exposure to the current pandemic impact on our operations globally. A review is required across the globe covering Demand, Supply and Capacity to ensure that we have a clear understanding of our supply network. Any gaps should be identified at least bi-weekly at Global Supply and given to the local teams.

The above is intended to provide a summary of our approach to our supply network during the current pandemic impact on our operations.

**MANAGER APPROVAL TO SUPPLY RELATED SUPPLY MANAGEMENT MANUAL**

Approved:  I agree that supply management will act in line with the above plan and will be working to it.

Approved:  I agree with the above plan.

[The document is available under \[Global Supply Management Manual\]\(#\)](#)

## Child Contingency Plan 2018-2022

### Objectives

1. Their setting may itself be vulnerable to a wide range of factors that could impact on operations (e.g. fire and flooding) and a contingency plan will be put in place.
2. Plans will be made available to the relevant personnel and be reviewed on an **annual basis**.

### Methods

- Reviewed by relevant facilities and staff responsible for their operation
- Checked/checked immediately following major events/emergencies
- Drawing of various plans will be done twice a day (perhaps weekend staff being available on stand-by for support) if needed
- Regular checks to be made available to staff
- Regular communication to staff if needed

### Good Practice and Best Practice

- Review and update contingency plans and arrangements for all facilities (e.g. fire, flood, power loss, etc.) and ensure they are up to date and effective
- Review and update plans for all staff and ensure they are up to date and effective
- This will involve a good amount of staff time and staff will need to be available, and aware of the risk of staff being unavailable at the time of an emergency
- Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
- Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
- Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
- Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
- Plans will be reviewed and updated on a regular basis and a review will be carried out if needed

### Notes

- The above contingency plan will be reviewed and updated on a regular basis and a review will be carried out if needed
- Plans will be reviewed and updated on a regular basis and a review will be carried out if needed

### Additional Potential Issues

1. Review and update contingency plans for all facilities (e.g. fire, flood, power loss, etc.) and ensure they are up to date and effective
2. Review and update plans for all staff and ensure they are up to date and effective
3. This will involve a good amount of staff time and staff will need to be available, and aware of the risk of staff being unavailable at the time of an emergency
4. Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
5. Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
6. Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
7. Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
8. Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
9. Plans will be reviewed and updated on a regular basis and a review will be carried out if needed
10. Plans will be reviewed and updated on a regular basis and a review will be carried out if needed

## Blood Contingency Plan 2018-2022

<p><b>Plan Objectives to be achieved by 2022</b></p>	<p><b>Primary Objectives</b></p> <ul style="list-style-type: none"> <li>1. Supply and distribution of blood components to hospital units within 30 minutes of their requirements, 24 hours a day.</li> <li>2. Meet 95% of the daily demand for blood products within the 30-minute supply period (20% of the daily demand for blood components are considered "urgent" requiring more than 30-minute supply).</li> <li>3. Have a system of storage and distribution which is capable of a 24-hour supply to the community of hospitals.</li> <li>4. Ensure that hospital orders received by the Blood Bank will have a predictable time of availability of the blood.</li> <li>5. Have sufficient inventory of blood and blood components, stored centrally and distributed to hospitals and units and where appropriate to emergency services, to respond to a significant emergency, taking into account the need to respond to requests for:</li> </ul> <ul style="list-style-type: none"> <li>- Transfusion of red blood cells to patients with anaemia;</li> <li>- Transfusion of all available blood volume to patients with trauma and patients with haemorrhagic shock;</li> <li>- Storage of autologous blood for transfusion to patients with surgery;</li> <li>- Blood products for transfusion to patients with haemophilia;</li> <li>- Plasma for rapid transfusion to patients with severe trauma and:</li> </ul> <ul style="list-style-type: none"> <li>6. Hospital units, including the community, to which transfusion is provided:</li> <ul style="list-style-type: none"> <li>- Community;</li> <li>- Tertiary hospitals;</li> <li>- Secondary hospitals;</li> </ul> </ul> <ul style="list-style-type: none"> <li>7. Hospital units, being transfusion services, to which transfusion is provided:</li> <ul style="list-style-type: none"> <li>- Tertiary hospitals;</li> <li>- Secondary hospitals;</li> <li>- Community transfusion centres;</li> </ul> </ul> <ul style="list-style-type: none"> <li>8. ## Global Contingency Plan-2019-2022

### WIP for channeling pharmaceutical supplies in view of Global Health Initiatives in Africa

#### 6. [Key Stakeholders/Institutions](#)

1. Pharmaceutical Regulatory Agency in countries concerned, led by either the AUDA/UNDA, the Ministry of Health
2. Pharmaceutical Organizations (PMDA, local NGOs, CDPO, Technical Committee etc.) will conduct self-assessment, RFP and contracts for procurement and provide inputs for cost of affected diseases.
3. Technical supplies sourced by each organization will be channelled to the affected States by the AUDA/UNDA
4. The AUDA /UNDA will conduct assessment for financing of items and also channel the affected States to channel the supplies.
5. The pharmaceutical organizations will submit their estimates through a single form provided by the AUDA. The organizations will be guided by the common estimates of CDPO, regarding the quantities to be.
6. The State officials of AUDA's countries of the domain will coordinate with the pharmaceutical organizations and the concerned UNDA.
7. The supply list to be considered - limited within 7 days after channeling approval of the AUDA /UNDA
8. The source of the items should preferably be accessible and if not possible then a being supplied for short term by regional providers and should not exceed the supply list.
9. The pharmaceutical organizations will report to the CDPO after distribution of the items.
10. Pharmaceutical Regulatory Agency in countries who channel medical products will have to monthly report through the goods form provided by AUDA/UNDA
11. Pharmaceutical organizations from outside Africa will have to report at least to [www.auda.org](#) and submit the goods form provided by AUDA/UNDA

#### 7. [AUDA/UNDA Health Management Authority \(HMA\)](#)

1. The AUDA will coordinate the total items channelled by the pharmaceutical organizations before distribution.
2. The AUDA will also ensure the quantity and quality of the items supplied to the pharmaceutical organizations.

## Event Contingency Plan-2018-2022

3. The DDOs will provide for business with business affected parties in form of distribution system.
4. The DDOs will ensure the delivery of business - services in the event the main work is stopped.
5. In case there is a possibility of conflict in the distribution business, the DDOs will ensure the smooth continuation of the distribution responsibility.
6. In case of a possible closure of the production or service unit in the distribution business, the DDOs will take responsibility of distribution of the work covered by the production responsibility.
7. Supplier delivery to central unit will be controlled by a joint buyer sales department. DDOs will ensure the responsibility for the local department.
8. Supplier like vehicle / vehicle delivery will be checked by POC department before departure.
9. Supplier supplies like Operating partner, Automobile, country supplies etc. will be checked by a POC. These checks will be done before.
10. Supplier like bank, fuel will be checked by local sales office / central buyers department before distribution.
11. DDO, DDOs will report to AITDA local office regularly in the form of reports like report on the distribution status.

### 7. DDO and Department (Business Unit) DDOs

1. The Information System (DDO) will accept and through will take up DDO from the production department, DDOs from DDO, CDO, Service & equipment department which is linked with issues by other departments.
2. The Information System (DDO) will provide the information to the production department regarding the goods that are not to be received in the DDOs.

### 8. AITDA

1. The National Accounts (AI) will ensure the continued AITDA local office in respect of the production status about the goods from customers.
2. The continued AITDA local office in charge will ensure approval of the local authority for business of the Distribution.
3. The continued AITDA local office in charge will include the maintenance of a communication with DDOs.

### Local Sales Office

1. City Sales / Field
2. Business supplies
3. Vehicle fleet
4. Fuel / Gas
5. Local production / distribution
6. Finance team
7. Inventory supplies / Support for local / field / long / distribution
8. Policy Support
9. Strategic / Business plan

## School Contingency Plan 2018-2022

10. Test Alerts
11. Drilling periods
12. Other essential activities so routine work of the school people like registration, transport and fees, medical services, large scale events etc

\*\*\*\*\*

### WORK AND MONITOR ALL POSSIBLE HAZARDS

13. Operations/Challenges of various activities in school setting
